President Signs Bill Paving Way  
For Pilgrimages To Battle  
Fields

President Coolidge, just before retiring from the Presidency, signed a bill which makes provisions for pilgrimages to cemeteries in Europe by mothers and widows of members of the military or naval forces of the United States who died in any war between April 6, 1917, and July 1, 1921, and whose remains are now interred in that country.

The act is passed does not carry out appropriation but directs the secretary of war to make an investigation for the purpose of determining the number of such mothers and widows who are entitled to make such pilgrimages and the number who desire to go, together with the probable cost of the same. The secretary of war shall report such findings to Congress not later than December 15, 1929.

The above information was received today at Red Cross headquarters here. Pilgrimages are to be made between May 1, 1930, and October 31, 1932, as may be designated. Applications for these pilgrimages will not be accepted until the act becomes effective and the secretary of war issues instructions thereon. Local Gold Star mothers will be kept informed of the matter through the Lawrence county chapter of the American Red Cross. Secretary P. J. Dempsey stated this morning.

## Prof. B. K. Thacker Speaks At Farrell

New Castle Lions Make Visit To  
Farrell To Prepare For  
Club

Prof. B. K. Thacker made the chief talk for the New Castle Lions Club when a delegation of New Castle Lions motored to Farrell Tuesday evening for a meeting with a number of prominent Farrell boosters. The first step in the local club's program to form a new Lions Club there, Thacker took for his subject "Lionsism," speaking on the aims, objects and accomplishments of this great organization.

Heading a group from Beaver Falls was Lion Gowell, deputy district governor of the local district of Lions International. Gowell made a short speech, pointing out the many advantages and opportunities that would be found if a club were established. Following the talks each of the 15 Farrell men present signed membership blanks and expressed their belief that a club can be formulated there. It is planned to have another meeting of the New Castle club and the Farrell men next Tuesday evening in the Methodist church, where last night's meeting took place.

Entertainment was furnished during the evening by a group of New Castle and Beaver Falls men. In general, the talk of the joint affair was King Lion E. D. Marvin of the local club. He presided during the meeting.

## WHERE TO GO TONIGHT

## PA NEWC OBSERVES

Franklin school indicating that interest in the contest will be high. Plans are being made to run off the inter-school elimination on Saturday, April 27.

Members of the New Castle Lions club went to Farrell last night to organize a new club among the prominent boosters of the town. The success that was reached far exceeded the club's expectations. The Farrell men are "real boosters."

The water danger here was null and void yesterday evening. During the day one's eye would say that the river water had dropped no less than two feet. There was a tremendous drop between morning and early evening.

Pa Newc is anxiously awaiting the statements of the young man who will tell what the ideal young lady is. The young men received their "telling" by a miss some time ago and the answer should be forthcoming very soon.

The department saw a couple of cars in town yesterday from a distant foreign state which were heavily laden. We wonder if the annual chase of tourists is under way?

Do you know your license number? If your car were stolen and you were asked the number, could you tell the police what it was? Coppers say that few people know their own automobile license number and when the card is stolen with the car, they are at loss.

With the epidemic of calls for the New Castle firemen to points outside the city, motorists are just as likely to meet a fire department truck several miles outside the city enroute to a fire as within the city limits. New Castle firemen have responded to numerous

calls outside the city this spring and have rendered excellent aid in some situations.

Farmers are evidently starting early to get the spring cleanup work done. Brush fires are to be noted here and there over the countryside daily, where refuse is being disposed of. Fields of dry weeds are also being burned over.

Some night another fire will take place in the downtown business district and it will be necessary for firemen to operate their big fire trucks into the streets. In such an event they will experience considerable difficulty as machines are being parked in the alleys where no parking is allowed. This is a subject which Pa Newc believes all automobile drivers should give consideration.

With the advent of spring, the annual "clean up, paint up" campaign will get under way and persons who look out on drab yards will soon commence cleaning away the winter debris. Painters should find their time occupied as the property owner will give price will improve their properties.

High water of past few days has kept the fishermen from the streams which swirl through different places in the county of Lawrence. Suckers bite best in the spring and the small boy with a pail and fishing has been reported "water high and muddy." However, the clear weather may bring about a change by Saturday.

Local businessmen are glad that Dame Spring has arrived and wish Easter high they are doing their annual spring business. Top coats and lead ties seem to attract the eye of the passerby. Brightly colored dresses, brilliant-hued hats and various shoes and neat looking hosiery prove a mecca for the feminines.

Take a walk up North Jefferson street and note the old U. P. church ruins. They are just about no more and workmen are tearing down the last of the rear walls. It is the biggest improvement on the street that you can mention.

Another spring note—Restaurants now sporting green onions, ripe tomatoes, strawberries and nice fresh celery on their bills of fare.

A unique sight out along the New Wilmington road: Two young Amish gentlemen coming to town were seen which had the better seed and there was a lively race ensuing between the two little yellow buggies. The first race between these peoples with their horses that Pa Newc ever witnessed.

of life but in the other aspects and phases which are found in Y. M. C. A. direction.

Rev. Maxwell stated some of the points in which physical direction was related directly to the other things of living and pointed out that Mr. Kirker had made a success in the interweaving of these factors.

Present Gift  
Toastmaster called upon R. L. Meermans, general secretary of the organization, who after a few brief remarks presented Mr. Kirker with a fine leather travelling bag as a token of regard from the group.

Mr. Kirker responded to the presentation, and in thanking them for the gift expressed his regret in leaving his position here which was his initial work with the Y. M. C. A. The new position is the highest in the Y. M. C. A. physical realm which is possible at the state capital city and the honor accorded the local director is a fine tribute to his efficient work at his post here, during the past few years.

Mr. Kirker is a native of New Castle, a widely known athlete, and in his work as physical director at the local association has been most successful. He has also been in charge of the summer camp of the Y. M. C. A. and handled that feature in a most commendable manner.

His host of friends here will regret to see him leave the city, but are gratified at the recognition that has been accorded to his service and ability in the promotion to Harrisburg.

## MEXICAN REBELS IN FULL RETREAT BEFORE FEDERALS

Andreu Almazan, leading the vanguard of the federal forces which seek to catch up to the rebels and drag them into battle, was about 30 miles north of Torreon and about 70 miles south of Escalon.

Gen. Almazan, who is reputed to be the finest cavalry commander in Mexico, had about 12,000 men under him, most of them mounted. His force is believed to be the most formidable concentration of cavalry seen in Mexico since the late Mexico Pancho Villa assembled 25,000 for a battle at Culiacan.

## VOTING MACHINE BILL READY TO BE PRESENTED

(Continued From Page One)

Several senators said yesterday they have received protests from sportsmen against the measure but in no instance was the complaint specific. The Salus bill in its present form would not affect the weapons used for hunting.

With the exception of that bill the final action calendar contains nothing to prevent a short Wednesday session. The second reading calendar includes the Mansfield industrial police bill which may be amended before final passage.

During the four weeks of the session yet to come Thursday sessions will be held. As a result the senate is expected to speed action today to make the last Wednesday as short as possible.

House Members Busy  
The house went to work today with a calendar of 50 bills on third reading and final passage and members were ready for a busy day before adjournment for the remainder of the week.

Gasoline matters will probably be quiet for a few days following the recommendation of the Talbot bill to the committee on ways and means and awaiting the introduction of the new four-cent measure, now being prepared. The Talbot bill provides for collection from the distributor while the Sterling bill also in the same committee, provides for collection from the retailer.

New Gas Tax Bill  
Both measures provide for a three-cent gasoline tax. It is generally conceded that the Sterling bill is dead and the Talbot bill may suffer the same fate. The new bill will be introduced before next Wednesday, the last day fixed for the introduction of bills in the house. The bill cannot be introduced in the senate because all revenue raisers must originate in the house.

The Sovers bill establishing a central magistrate court in the Philadelphia was among the late bills passed finally by the house. The Turner bill authorizing and empowering the supreme and superior courts to call conferences of judges to adopt rules and expedite the trial of those charged with criminal offenses and standardize the procedure was another to pass finally.

Many bills scheduled for action in the house yesterday were not acted upon finally until today. The deluge of bills amended tied up the printers' desks when called yesterday. They helped swell the calendar today.

## ARREST EXPECTED SOON IN STRANGE KILLING OF GIRL

(Continued From Page One)

a spell over them," the detectives asserted. "They laugh and say they don't believe in witchcraft but they're afraid just the same."

Frank Mastria, alias Masters, of Easton, the girl's former lover, gave information which cleared him of all blame in the girl's death, police said. He revealed that he had broken off his love affair with Miss Delp when he learned she was meeting another man. Letters he showed detectives from the girl proved he was not responsible for her delicate condition but she had told him of it and that he did not give the girl any money because he was "broke."

Great significance has been attached to the finding of the hex or pow-wow notes on the girl's body after it was learned Mastria was not responsible for her condition. The notes are regarded among followers of the hexers as charms against murderers, robbers and witchcraft. They indicated the girl feared for her life, state troopers say. Possibly she carried them, authorities said, in the belief that she could not be "hexed" or placed under a spell by a pow-wow doctor she had engaged, or as a protection against murder.

Examination of the scene where the body was found has convinced police the girl was murdered in the Catawaga Gun clubhouse, then placed at the spot where the body was found. The report of the kind of poison found in the girl's stomach is expected today. Then a checkup will be made to determine if certain persons had purchased that kind of poison recently by District Attorney Ethan Allen Gearhart said.

## Apple Crop Here Is 80,000 Bushels For Past Season

Lawrence County Apple Crop  
Valued At More Than \$100,-  
000 For 1928

The Lawrence county apple crop for 1928 totalled 80,770 bushels which were valued at \$105,000, states county agent Harold McCulloch, in quoting figures just issued from the state department of agriculture bureau of industry.

Merger county had some 91,000 bushels valued at \$122,000 while Butler county had 10,000 bushels with a total value of more than \$152,000, according to the bureau report.

The latest federal census, states the county agent, shows that nine of every ten farms in the state have apple trees in comparison to the United States as a whole, where less than half of the farms have apples.

## Better Bond For Aiello Is Asked When Case Closed

An unusual occurrence happened at the courthouse this morning just after the jury had retired in the case of James Aiello, charged with transporting liquor. Judge Hildebrand, before whom the case was tried, called Aiello into court and placed him in the hands of the sheriff until he would furnish another bond. The court was not satisfied with the bond which Aiello had given. The amount of the bond was placed at \$2,500. The jury retired around 10 o'clock and at 1:30 this afternoon had not agreed upon a verdict.

## ADMINISTRATOR AND DIPLOMAT

WITH Henry L. Stimson aboard ship bound for Washington where he will relinquish the governor-generalship of the Philippines to become secretary of state in President Hoover's cabinet, the nation is beset with two conflicting emotions. This able executive and envoy is needed both in the Philippines and at the head of the country's foreign department.

Conditions in the archipelago improved immediately after Governor-General Wood was succeeded by Stimson. The agitation for independence, which was increasingly intense under General Wood, died out like a quenched spark with the taking over of the Philippines administration by Stimson.

His successes in the Philippines show him to be signally fitted for his new cabinet position and contain the promise of an able administration of foreign affairs during the next four years. But the public regrets the sacrifice that must be made in the Philippines to release him to Washington. The fear is universal that his successor in the Pacific may not possess his grasp of the situation or his remarkable knowledge of Filipino psychology.

The Stimson administration has proved the value of civilian rule in the Philippines, which was established with the appointment and after the special investigation made two years ago by Col. Carmi Thompson for President Coolidge. Civilian administration should continue.

## THE PLIGHT OF JOHNSTOWN

THE conviction of a mayor of a Pennsylvania city on charges of misdemeanor in office, extortion, perjury, conspiracy and keeping a gambling house is not to be viewed with complacency. On the other hand, his acquittal would not have wholly cleared the atmosphere. One of the principal witnesses for the state in the Johnstown case testified he paid money for "protection" which he did not receive in the conduct of a gaming establishment.

Thus whatever might have been the result of the trial of Joseph Cauffiel, it would have left behind unpleasant implications of vice conditions either with the connivance of, or in spite of, the authorities. To the extent that the situation may be symptomatic of the "racket" elsewhere it is disquieting. Much has been heard lately in several cities about the evil of gambling slot machines. Ordinarily, the matter would seem to be one that the police powers could handle effectively. That it got beyond their control may be inferred from the agitation expressed in various newspapers of the state. A bill to prohibit the sale of these machines in Pennsylvania now before the house committee on law and order in the general assembly suggests that need is felt for strengthening the existing legislation.

But enough has come to light to prove that the roots of the evil may be deeper than can be reached by statute or courts. An awakening of the civic conscience is devoutly to be wished. The circumstances deserve notice because they emphasize a difficulty wholly apart from the liquor problem. Bootlegging does not appear in the formal charges in this case. Those who assume that prohibition and its corollaries are the source of all our troubles have a knotty problem to explain here.

It is another angle to the investigation which President Hoover's commission will find within its scope. Meanwhile the public has a responsibility in the capacity of individuals, as the president pointed out in his inaugural message. It is not lessened because a jury has reached a decision in the case of Johnstown.—Philadelphia Inquirer.

## THE DANGERS OF KITE-FLYING

THE kite-flying season has arrived. With it comes certain dangers for the youngster who participates in the sport.

To the casual observer no sport could be less hazardous than flying a kite. In the main, this is true, but there are situations in which real danger may arise. It is pointed out by the Western Pennsylvania Safety Council that falls caused the largest percentage of accidents on record and that many fatalities were due to kite-flying.

Flying a kite from the roof of a house or over electric wires is particularly attended by danger. Climbing poles carrying electric wires, in order to untangle a kite which has come to grief, is also a dangerous procedure, as there is always the possibility of coming in contact with heavily charged wires.

A warning issued by parents to their children who indulge in the sport may be the means of preventing a serious or fatal accident.

Spring days are moving days in New Castle.

In or out of the presidency, Calles seems to have the Mexican situation under control.

A partisan is a man who thinks you are against him unless you are as unreasonable as he is.

Problems tend to solve themselves. And a few days after the next war begins the filers will see to it that the battleships are junked.

People are too trifling to take preventive medicine. Why doesn't a paternal government slip it over in the gum on postage stamps?

Whenever an inconsequential statesman turns up somewhere in Europe and looks around the railroad station for a floral arch and a reception committee, we shall always remember that Lindbergh took along letters of introduction.

An Educational War.  
The President's Power.  
Strikes Against Progress.  
A Normal Spine.

By ARTHUR G. BRISBANE  
(Copyright, 1929, King Features  
Synd., Inc.)

The little war in Mexico may help this country to realize the importance of modern war methods. Government forces, attacking revolutionists at Torreon, contribute these lines to the front page: "AIRPLANES BOMB CITY. KILL FOUR. REBELS FLEE FROM CITY."

Will this government protect itself with airplane carriers, with a fighting air fleet, twice as great as any in the world, and submarines?

Or will the government wait to read concerning the bombing of one of our big cities: "City Bombed, 40,000 Killed, Population Flees from City?"

Fortunately, Herbert Hoover is an engineer accustomed all his life to deal with machinery and demanding the newest type of machine.

It is not necessary to tell him that men and cities on the ground are helpless against attack from the air, unless they are defended in the air.

Mr. Outahe, who reports Washington and the government, says Hoover's determination to exercise executive authority reminds him of Roosevelt.

So much the better. The President has authority, more than any ruler in the world, now that China and Russia have no emperors and Turkey no sultan.

The people elected Herbert Hoover because they believed that he knew how to use the presidential power, and they hope he will use it constantly.

Nearly 100 telegraph operators employed by a firm of stock brokers have struck because the firm is installing printing machines to replace human operators.

That is a mistake, and is as useless as the strike of musicians against picture films that supply their own music.

Men that fight against improvement in machinery fight hopelessly because they fight against progress.

It was useless for stage coach drivers to throw stones at locomotives. Men suddenly deprived of work are entitled to all sympathy. But no strike against progress ever was or ever will be won.

This is "Normal Spine Week," osteopaths tell you, and those interested in human welfare, old-fashioned doctors especially, should pay attention. The spine is as important to the body as are columns supporting the roof to a temple.

The American Osteopathic Society renders public service in making people think about the backbone.

Consider that long string of nicely adjusted little bones, of which the topmost, highly developed, is the skull. Running down from the brain, sending out on both sides nerves that feed energy to the body, carrying back warnings to the brain, the spine is the most important part of our physical machinery, excepting perhaps the heart and lungs.

Thousands of children are handicapped by twisted spines, often slight curvatures, causing pressure on important nerves, reducing efficiency not conspicuously enough to cause alarm in parents.

Nothing is more dangerous than reckless manipulation of the spine, by quacks, nothing more important than carefully watching the spine of a growing child and remedying promptly any defect.

Some old-fashioned doctors unfortunately adhere to the belief that no matter what is wrong, the only remedy is some kind of a medicine taken internally.

As regards spinal adjustment, you might as well give internal medicine to an office building with its steel framework out of gear.

See that your children sit straight, that they do not lean over while reading to get better light. Teach them to hold their shoulders back, use their diaphragms and keep the weight of the ribs off their lungs. You will have healthier children. And do the same for yourself.

To avoid being run over while crossing the streets, put on snow-white clothing at night. That makes you visible to a distance, and startlingly visible when the headlights strike you. So says an investigating committee. Country roads, having a red lantern would help also, but properly lighted streets present the real solution.

Citizens who complain of sluggishness in their home city might communicate with Mr. Field, president of the Oakland, Cal., Chamber of Commerce. There isn't sluggishness in Oakland.

Within a year more than 100 important industries have established plants in Oakland, including Walter Chrysler selecting the city for his new Pacific coast plant and the Sheldahl Tire Company of Akron, O.

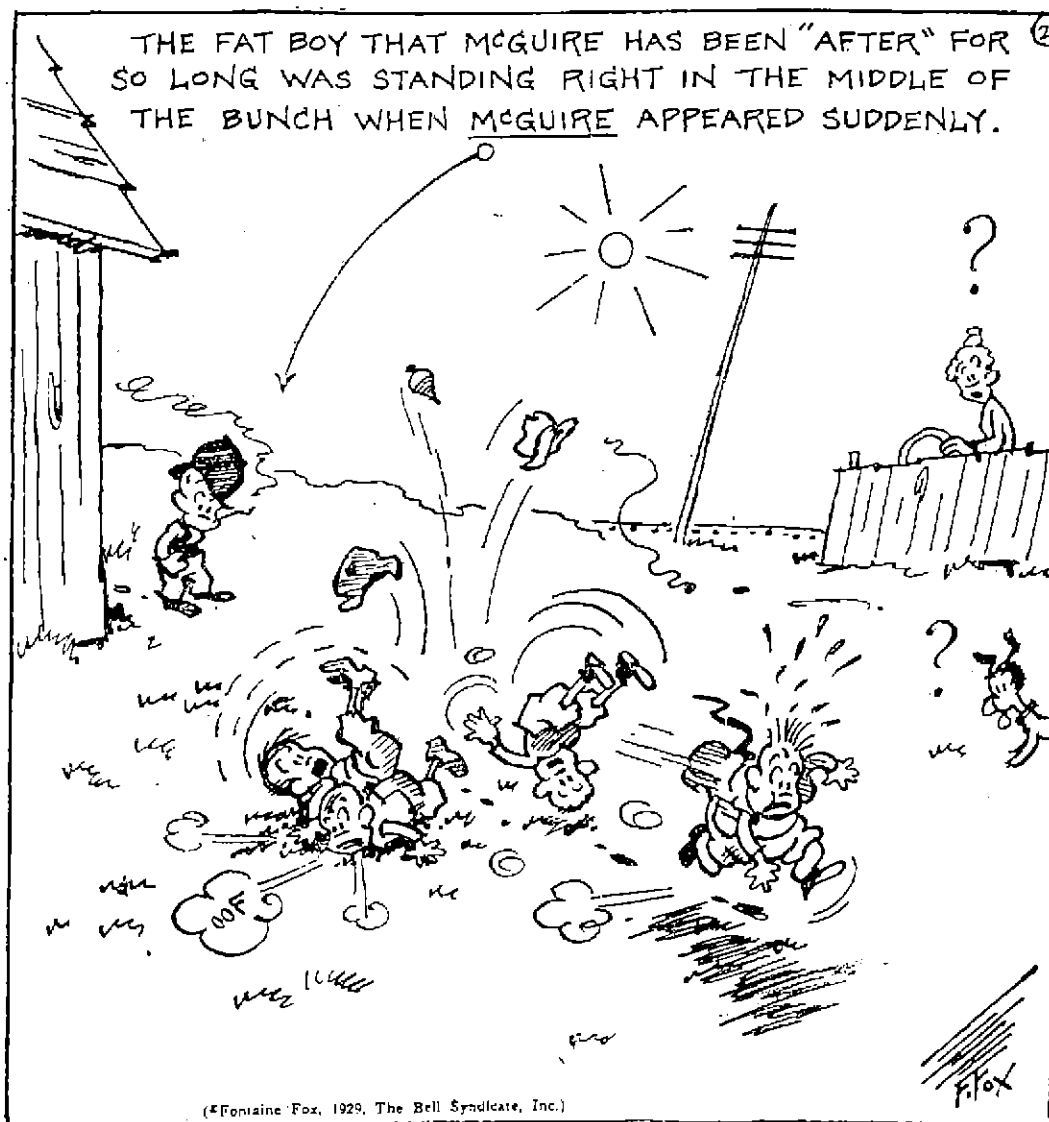

Oakland possesses a really magnificent and adequate airport and is now getting under way a new \$10,000,000 harbor improvements program, part of a plan to dominate the coast in the air and on the water.

San Francisco, of the Golden Gate, and Oakland should be united by bridge and tunnel. Some shortsighted on both sides are opposed. That sort of foolishness should be left to Great Britain and France. They have been trying for 100 years to overcome objections to a channel tunnel that would have saved many times its cost in money and many lives in the big war.

By becoming a citizen of Florida you can dodge income tax and save enough for the tips while there.

## Hints and Dints

Sun sets tonight 6:11. Sun rises tomorrow 6:02.

Knowledge is power, but it fails miserably when a ten-candle power beam tries to throw out a lighthouse beam.

We hear a lot about lining the highways of Pennsylvania with trees. We wonder if the telephone wires and telephone lines were ever considered in this project. Along every road one can see magnificent trees with their tops cut off in order to let wires be free. What is going to become of the wires and poles along the roads when these trees are planted? Of course this may be a controversy after the trees grow up.

Our friend Henry Kline remembered us a few days ago with a box of fine mixed fruit from his wonder place at Winter Haven, Florida. It is about the nicest selection we have seen this year and it is highly appreciated at our house.

ON THREE EMOTIONS  
By Franklin D. Manning.  
Love has no ultimate cause.  
Pursue love and it vanishes.  
Pursue it not and it remains.  
Love is as God is—Mystery.

Friendship is self-determinant. It is its own architect and builder. And having built, it entertains. Only those who admire the design.

Gratitude springs from principle. Need is bound, even when it needs no more.

To him who gives with charity. Gratitude puffs the giver. And waits the one to whom he gives.

Love is like the sun. The sun nourishes and parches without reason; Scorches nurtured plants that pant for shadows.

Gives shade to weeds That should have the choking breath of heat.

Beats upon beauty longing for cool release. Obstinately withdrawing When beauty begs for warmth.

Love is like the sun. It makes no distinctions. Love is as unapproachable as the ways of God.

We have always been able to see about what interest some people have in a project when the hat was passed or a subscription paper was held under their noses. We have seen many who let the hat go by without doing anything and then again there have been many who signed the paper as a means of getting rid of it the quickest and easiest way and then never saying anything on the written promise.

Of course there are many who cannot afford to pay and then there are those who could do a little and will not and then there are those who can very easily and refuse to help. Only a very few are ready to do their part when it comes to doing the real work, which is putting up the money.

"Transparency is said to be the latest in Paris styles." They must be going to make 'em of glass.

A GREAT SUGGESTION  
Will some vociferous and farseeing Solomon kindly step gracefully to the front with an explanation of why the New York police arrested the man caught running up Broadway on the tops of street cars and automobiles? He showed them, in a few well placed leaps, how to end traffic jams forever.

Picture the new era! With nobody on the streets, cars travel in swift and unbroken lines. Pedestrians hop, skip and jump from bus top to car top to taxi top with the grace of a dancing master and the agility of an Alpine goat. There is nobody to hit, nothing to dodge. The pedestrians ride free of charge and get home twice as fast.

Instead of arrest, that New Yorker should have had a gold medal. The fellow was inspired!

The American Medical Association is firm in the conviction that dieting is the only means of reducing flesh. Might start with the butcher who gives short weight.

An uplift movement in New York which isn't receiving much sympathetic response is the idea of having

There's just two ways I find out how wonderful you are—die, or run for office on a reform ticket.

A paper napkin I grab the best dinner that wuz ever cooked.

dress and flowers supplant the flapping clothesline of New York tenement districts, but just what the up-lifters would do with the wash no one has come forward to explain.

CUTTING HAZEL OFF THE LIST  
"I'm not going to step out with Hazel any more."  
"Why not?"  
"She didn't invite me to her wedding."

An ornithologist has come to the defense of the cuckoo, which, he claims, lays its eggs in other birds' nests because it is an anatomical impossibility for it to set, which is probably what makes it cuckoo.

Chief of Police—What! You mean to say this fellow choked a woman to death in a well-lighted cabaret in front of over a hundred and fifty people? Did no one interfere?

Cop—No, cap, everybody thought they were dancing.

Every community has at least one family that is forever in some lawsuit because everybody else is so tricky and mean.

A political candidate was incensed at certain remarks which had been made about him in the leading paper of the town. He burst into the editorial room and exclaimed, "You are telling lies about me in your paper and you know it!"

On the two questions for which the call was made, the PITTSBURGH POST-GAZETTE comments: "The President meets the view of a large body of public opinion in taking a stand against a general upward revision of the tariff at this time."

The farm problem has been sufficiently discussed to make plain at least the remedy proposals that cannot hope for Executive approval. Mr. Hoover has shown himself as strongly set as was President Coolidge against the equalization feature. But he has ideas for price stabilization through cooperative and other agencies and a substantial revolving fund to aid the purpose. The HARTFORD TIMES, however, thinks there is little prospect of success in this direction and sets substantial impossibility of defeating the operation of natural economic laws by the enactment of political statutes.

"Doubtless the President would prefer that there should be no session and next that there should be nothing considered except farm relief," says the CHARLESTON EVENING POST. "But the manufacturing interests are not to be denied; the question is how far they will insist upon going in their demands." The Post believes

that the failure of many public speakers does not lie in their lack of information about their subject or their lack of words. It lies rather in the fact that they do not like people. They do not have a warm and friendly feeling for the folks in the audience. Without this feeling neither their personality nor their message will take hold.

The late Senator Albert J. Beveridge, who wrote one of the best little books on the subject that has ever been written, called "The Art of Public Speaking," tells about all there is to be told when he concludes that: "Speak to your audience in a natural and friendly manner."

ALL KINDS OF SELFISHNESS  
There is more to selfishness than merely keeping things for yourself and refusing to give much away. Selfishness is withholding any kindness or courtesy that might make anyone else momentarily happy. Selfishness is failing to take care to person some other act, that would smooth the way for another. The man who gives away money generously may yet be selfish. No matter how much he gives away if he persists in doing things to the distress of someone who is near and dear to him, he is yet miserably selfish.

BIRDS  
It is said that a bird in the hand is worth two in the bush, but if you are forever afraid to let go the bird in the hand to take a chance at dashing into the bush, when it looks like a good chance, you will probably never be good for anything more than a bird perch.

JUDGMENTS  
If no judgments were made until all the evidence was in, most judgments would be soft and kind instead of hard and severe.

HELLO, GOVERNMENT!  
England can give some light on the result of a Government run business.

The English Government runs the telephone business and a telephone is a luxury of the well-to-do.

In this country there is a telephone to every six of seven people, practically every working man is on the wire, and so is almost every farmer.

In England, large houses containing valuable art collections sometimes burn down because there is no telephone to summon the fire department. People living in the country have to send for the Doctor on foot or on horseback, exactly as they did in the Middle Ages.

In these United States, the telephone is a private institution, and the result is that the United States with 120,000,000 inhabitants has considerably more than twice as many telephones as all Europe, with four times as many inhabitants.

Forecasters Wary About Saying  
What Congress Will Undertake

Strong Pressure For Consideration Of Matters Other Than Farm Relief And Tariff Regarded As Certain To Be Exerted

One guess is conceded to be as good as another as the press contemplates the approaching special session of Congress and wonders how long it will last and what will be done in addition to dealing with farm relief and the tariff as suggested by the President.

"No one can tell what Congress will do nor how long it will take to do it when once in session" says the INDIANAPOLIS STAR. "At the next Congress would make a hit with the nation, it will proceed to earnest consideration and action on such subjects as are presented by the President, and then will adjourn." The WATERLOO TRIBUNE, however, recognizes that "the country will have no more to say about it than the President, not so much in fact" and the Iowa paper visions the national legislative body as starting to grind April 15 and concludes that "there is no telling when it will quit."

"The extra session will probably run into the late summer, and the December session will not be far away when Congress lays down its work for an interval of rest," predicts the LEXINGTON LEADER. Although it admits that it is likely "the agricultural relief bill will be ready for submission by the day Congress convenes, and within a week the tariff measure will be introduced."

"Efforts are made to restrict legislation to the two subjects named by the President through appointment of a committee on those subjects alone," the PORTLAND OREGON JOURNAL observes, "but Congress controls its own action, and there will be pressure to take up other legislation. An exception in favor of reapportionment of the House is already conceded."

The national origins basis of immigration quotas will become effective on July 1 unless it is suspended or repealed before that date, and its opponents will certainly make a renewed effort. Both the railroads and the Interstate Commerce Commission are impatient for a new law on consolidation and they will not wait. The perennial Muscle Shoals problem will surely be brought to the front.

"There is plenty to be done," in the opinion of the HOUSTON CHRONICLE. There will be credit enough for both political parties if they get together and work out a constructive program." The LYNCHBURG ADVANCE remarks as to the tariff: "Many, many business interests which desire to see their products given the benefit of a higher tariff duty are going to be grievously disappointed and hurt if they are not given some concession."

"The session may run to the Fourth of July," according to the ST. LOUIS TIMES, which offers the estimate of the situation: "The farm-relief advocates are going to die hard unless they obtain what they wish to get, and that is a great deal. What their radical leaders would like to put over would be a measure affording a government guaranty of prices based upon a liberal estimate of production costs, to be made by a bureau which agricultural interests would dominate."

"The leaders of this vision will not let go voluntarily." The PITTSBURGH POST-GAZETTE comments: "The President meets the view of a large body of public opinion in taking a stand against a general upward revision of the tariff at this time."

The farm problem has been sufficiently discussed to make plain at least the remedy proposals that cannot hope for Executive approval. Mr. Hoover has shown himself as strongly set as was President Coolidge against the equalization feature. But he has ideas for price stabilization through cooperative and other agencies and a substantial revolving fund to aid the purpose. The HARTFORD TIMES, however, thinks there is little prospect of success in this direction and sets substantial impossibility of defeating the operation of natural economic laws by the enactment of political statutes.

"Doubtless the President would prefer that there should be no session and next that there should be nothing considered except farm relief," says the CHARLESTON EVENING POST. "But the manufacturing interests are not to be denied; the question is how far they will insist upon going in their demands." The Post believes

that the failure of many public speakers does not lie in their lack of information about their subject or their lack of words. It lies rather in the fact that they do not like people. They do not have a warm and friendly feeling for the folks in the audience. Without this feeling neither their personality nor their message will take hold.

The late Senator Albert J. Beveridge, who wrote one of the best little books on the subject that has ever been written, called "The Art of Public Speaking," tells about all there is to be told when he concludes that: "Speak to your audience in a natural and friendly manner."

ALL KINDS OF SELFISHNESS  
There is more to selfishness than merely keeping things for yourself and refusing to give much away. Selfishness is withholding any kindness or courtesy that might make anyone else momentarily happy. Selfishness is failing to take care to person some other act, that would smooth the way for another. The man who gives away money generously may yet be selfish. No matter how much he gives away if he persists in doing things to the distress of someone who is near and dear to him, he is yet miserably selfish.

BIRDS  
It is said that a bird in the hand is worth two in the bush, but if you are forever afraid to let go the bird in the hand to take a chance at dashing into the bush, when it looks like a good chance, you will probably never be good for anything more than a bird perch.

JUDGMENTS  
If no judgments were made until all the evidence was in, most judgments would be soft and kind instead of hard and severe.

HELLO, GOVERNMENT!  
England can give some light on the result of a Government run business.

The English Government runs the telephone business and a telephone is a luxury of the well-to-do.

In this country there is a telephone to every six of seven people, practically every working man is on the wire, and so is almost every farmer.

In England, large houses containing valuable art collections sometimes burn down because there is no telephone to summon the fire department. People living in the country have to send for the Doctor on foot or on horseback, exactly as they did in the Middle Ages.

In these United States, the telephone is a private institution, and the result is that the United States with 120,000,000 inhabitants has considerably more than twice as many telephones as all Europe, with four times as many inhabitants.

## Home Endangered Near Field Club

### City Firemen Called To Aid In Extinguishing Serious Grass Fire

Chief Charles Lynn and Truck B. answered a call to the White farm in the rear of the New Castle Field Club at 1:45 Tuesday afternoon, when a serious grass fire menaced the home and outbuildings.

When the firemen arrived on the scene, they found that men working at the Field Club and neighbors had succeeded in extinguishing the fire near the buildings, but that it was still burning merrily in other directions, having spread over a wide area, fanned by the high wind.

The blaze spread to the property of the Field Club but was finally extinguished before any serious damage had been done.

Four other grass fires were reported to the firemen during the course of the afternoon and evening, none of which did any damage.

A small blaze along Temple avenue was extinguished by the Fourth Ward department early in the afternoon. No. 5 department was called to Pollock and Home at the same time. Chief Lynn and the Central department boys were at the Neshannock township blaze, a small fire was found.

At 5:30, Chief Lynn answered a call to a spot near the Jameson Memorial Hospital, where some new homes were being erected by a grass fire. At seven o'clock, Assistant Chief Craig answered an alarm at Cascade street and Stanton ave., where a grass fire was in progress. It was not threatening any property but was extinguished.

### SMALL GIRL IS HIT BY PASSING MOTORIST

Edward Hanna, South New Castle Borough, reported to the police Tuesday that while driving the truck of the Allen Equipment Company of East street, west on Croton avenue, across from the Croton avenue school, that a small girl, Dorothy Jane Peiffer, aged 9, of 906 Dewey avenue, ran from the south side to the north side of Croton avenue in front of his machine. She was hit and

### Bridgeport, Ohio, Residence Bombed

International News Service: BRIDGEPORT, O., March 20.—Police were working on several clues today in an attempt to solve the bombing of John Kunik's home here last night. Kunik was a former leader of the United Mine Workers who was expelled from the organization when he attempted to lead an insurgent force back to work during the Eastern Ohio strike a year ago.

Although six members of his family were showered with broken glass, wood and plaster and hurled from their beds by the force of the explosion, none was injured. Mrs. Kunik is suffering shock and is under care of a physician.

Exclusive Central Press Dispatch to New Castle News.

NEW YORK, March 20.—This town of ours: Helen Morgan, who transfers next season to an Arthur Hammerstein fonder, might like to saddle up in knowing that she will be directed by Hammerstein, from whom the recently profited. Speaking of "whom," reminds us of P. P. A's recent observation, i. e., that Gene Tunney and Lindy never indorsed anything. Tunney indorsed Napol in the Eve World ever so many editions ago. Murrel Finley, the show lass, is Dean Cornwell's model for the new Los Angeles Memorial Library mural. Wm. A. McGuire is reading "East is West." Ziegfeld beginning rehearsals in 10 days. U. S. women spent \$1,652,000,000 for cosmetics last yr and only \$3,523,728 on skirts.

A PLAY ABOUT RODEO "Buckaroo," a self-styled melodramatic comedy by three authors, is a dramatization of the Rodeo (ro-day-o

if you please) and is peopled with numerous cowboys, cow lassies, bronco busters and most of the other necessary characters that go to make an accurate portrait of that outdoor entertainment. It is at times an interesting show, but only at times. It is for the most part a jerky and feeble story, suffering chiefly from faulty direction, and probably was intended to arouse the "talkie" impresarios, Jesse Lasky of the Famous Players from witnessed the premiere, including:

#### MANNERS

If to be rich were all.  
Then gamblers should be feted  
And ignorance and manners coarse  
By no one should be hated.  
If by the swing of fortune's wheel  
True worth is to be reckoned,  
Tis folly then with nobler dreams  
To waste one's fleeting second.

But money falls to cruel hands  
And sometimes fails the tender.  
Money that's given to the fool  
Creates a foolish spender.

Worth is not carried in the purse  
Nor counted by the penny.  
Who seek to know the world's esteem  
Is judged from viewpoints many.

Talk as you will this world of ours  
At heart is sentimental.  
Who would by men be honored here  
Must cultured be and gentle.

No lasting place can money hold  
However bright its banners.  
Above the ownership of wealth  
The world demands good manners.

### DAME DUCK'S BEAUTY PARLOR

Peter's memory was good and he drew a word picture of what he had seen that morning down by the old mill pond.

"Then Mrs. Duck did something that if I had not seen with my own eyes, I never in the world would have believed. Mrs. Duck sat on her tail in the water—yes, sat right down on the water—stretched out her long neck, peering with her bright eyes this way and that to see if anyone was watching her, and set to work to comb out her lovely feathers.

"Every once in a while Mrs. Duck would tip her head and gaze at her image in the clear mirror beneath her. She didn't seem quite satisfied with herself, though, something seemed to trouble her. At last Mrs. Duck tapped you on the back with her wing, and I heard her say:

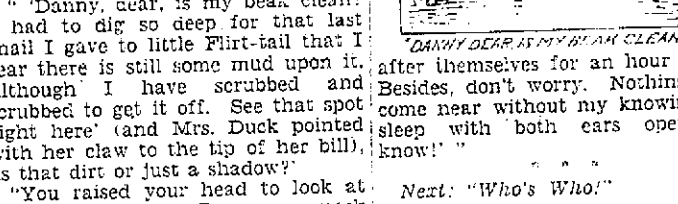

"'Danny, dear, is my beak clean? I had to dig so deep for that last snail I gave to little Flirt-tail that I fear there is still some mud upon it, although I have scrubbed and scrubbed to get it off. See that spot right here' (and Mrs. Duck pointed with her claw to the tip of her bill), 'is that dirt or just a shadow?'

"You raised your head to look at your wife, and then I saw your neck was there all right—yards and yards of it! How you had done it I couldn't guess, but you had curled your neck up so it had been hidden among the feathers on your back.

"At your wife's questions you stretched it out, and somehow the way you did it reminded me of a person yawning—flapped your wings once or twice as if to straighten out a crick, and at last bent your head toward Mrs. Duck and examined the spot on her back.

"You are as clean and fresh as mint, my dear," said you to her. "That is only a shadow; turn your head the other way! There, it is gone! Now that I have made your mind comfortable as to that, don't bother me again for a while. I was having such a comfortable snooze when you roused me."

"Float off for your morning gossip with your neighbors, wife! The children are large enough to look

### Sounds Warning To Careless Motorists

HARRISBURG, March 20.—"Many people like to ride the crown of the road when traffic does not interfere, but the practice is dangerous to the point of suicide when approaching a curve or the crest of a hill," Wilson C. Price, superintendent of the state highway, said today. "Belting that the road is clear when you can't see it is a poor gamble."

"It is a pleasant feeling to have plenty of space between your wheels and the edge of the road, but the habit of driving in the middle is a bad one. Even though you do see a car come over the hill or around the curve in time to avoid it, you must make a sharp turn to get over and risk a skid. The often you don't have that precious second to get over and the rear of your car must take a side-swipe, the patrol head said.

"It is unfair, poor manners and lacking in sportsmanship to ride in the middle at a hillcrest or curve. Another driver suddenly confronted with your car and not enough road receives a shock that too often has resulted in accident and we can hardly be fair in calling such an occurrence an 'accident.'

"Accidents do not happen. They are caused. Approach hillcrests and curves with caution and keep to your own side." Price advised.

**When a Child is FEVERISH, CROSS, UPSET**

Colic, gas, sour belching, frequent vomiting, feverishness, in babies and children, generally show food is souring in the little digestive tract.

When these symptoms appear, give Baby a teaspoonful of Phillips' Milk of Magnesia. Add it to the first bottle of food in the morning. Older children should be given a tablespoonful in a glass of water. This will comfort the child—make his stomach and bowels easy. In five minutes he is comfortable, happy. It will sweep the bowels of all sour, indigestible food. It opens the bowels in constipation, cures children's ailments. Children take it readily because it is palatable, pleasant-tasting.

Learn its many uses for mother and child. Write for the interesting book, "Useful Information." Address: The Phillips Co., 117 Hudson St., New York, N. Y. It will be sent FREE.

In buying, be sure to get genuine Phillips' Milk of Magnesia. Doctors have prescribed it for over 50 years. "Milk of Magnesia" has been the U. S. Registered Trade Mark of the Chas. H. Phillips Chemical Co., and its predecessor, Chas. H. Phillips, since 1875.

## Boston Flower Show Features Desert Garden

(International News Service)  
BOSTON, March 20.—Five men searched the western deserts for material for a \$25,000 desert garden one of the features of the Centennial flower show which the Massachusetts Horticultural society opened in Mechanics building to commemorate the 100th anniversary of the society's foundation. The material was assembled under the direction of Mrs. Sherman Hoyt of Pasadena, Calif.

Mrs. Hoyt also contributed to the anniversary display of a redwood tree exhibit.

Three Stories High.  
A magnificent acacia forest of yellow blossoms were erected three stories high so that one end of the exhibition hall was a maze of yellow glory reaching to the ceiling. This exhibit was designed by Thomas Roland.

Another novelty was the exact reproduction of an old fashioned garden of one hundred years ago in charge of Mrs. Lester Leland of Manchester-by-the-Sea. A small old-fashioned house from a Maine village was used in this display. Flowers popular in the early part of the last century surrounded the quaint old farm house.

Many Lilies.  
From the Vanderbilt farm at Newport came an immense lily display. D. J. H. Lancashire of New York and Manchester-by-the-Sea also sent a lily display.

A tropical garden filled with plants and vegetation of climates was furnished by Albert C. Burrage of the Massachusetts Horticultural society.

Bulb gardens and rock gardens were among the features. Paul Revere hall was given over to a rose and carnation display, the big auditorium being a mass of roses and carnations.

Mrs. Bayard Thayer was the donor of a thousand dollar silver cup of over 100 years old and over 50 persons also contributed cups.

## DAUGHERTY DEFENDS RECORD IN OFFICE

(Continued From Page One)

city declared. "I go to sleep promptly at night. I am not a public life now and I do not know that I ever will return. I never think of the past. I think only of today, and tomorrow. I harbor no bitterness against any man, even my enemies, and everybody knows Harry Daugherty was never afraid to make enemies."

Daugherty lit his pipe. He was being interviewed in his winter home in El Verano. He proceeded in this manner:

"I never craved power. I was just being pushed along, up from boyhood as the winds of time, fortune and misfortune carried me. I always made it a policy to help someone else rather than consider my own interests first. I wanted to be a lawyer, not a politician, but through force of circumstances I became both."

Made Enemies.  
"Hardly any man in the country has been assailed with the vigor I have been. I made plenty of enemies. That is why. Any man who is a positive character is bound to make them. I made enemies during the railroad shopmen's strike when I went to Chicago, after consulting no one but the president, and obtained that injunction that enabled the mail trains to run in spite of the strike. I made more enemies, and perhaps more bitter enemies, because of my prosecutions under the Sherman anti-trust act."

"I was the first attorney general who prosecuted under the Sherman law. It so happened that I prosecuted several millionaires. Now I have nothing against capital, but I was determined to do my duty."

"That was why I was attacked and investigated. They struck at me because the best of the American people loved the American people."

Daugherty shifted his huge frame in his chair as he made the observation that "you can't make everybody like you." He said he had the reputation of liking a good fight and he thought that the name Daugherty had a "harsh sound" to it, that it suggested a big, strapping, combative person, when in fact he was a matter of fact, he said, his was a kindly nature. He had educated 30 or 40 boys, taking some of them out of penitentiaries, and practically all of them have made good.

Not So Hard Boiled.  
During the interview Daugherty talked affectionately of his aged mother, showing a letter which indicated that she still was vigorous despite her age. He mentioned the fact that for 25 years he watched over an invalid wife, although he took no credit for doing so. He gave the impression that, after all, he wasn't quite so "hard boiled" as some people imagine.

"If you are all right here," said Daugherty, putting his hand on his heart, "you are all right. The great thing for any man is to know he has a clear conscience and that he has done his duty regardless of consequence. I have been trusted with as large amounts as any man in this country."

The attorney general didn't handle the money when I was in office. I organized the Department of Justice so that from five to 10 persons knew what I was doing all the time. I did it as a precaution—as a matter of safety.

Consider Record.  
"I resolved that I'd not take a 'rink while prosecuting the dry laws, and I did not until I became a private citizen again."

"All I ask is that the American people consider my record. I am proud of my record. The attorney general's office is the easiest of all to run as far as peace of mind is concerned. He has to ask himself but one question, 'what is the right of it?'"

"The question as far as the public is concerned should be: What kind of an attorney general was this man? Was he a crook? Was he a decent man as men go? Was he honest? Was he a crook? The record stands forever. It is there for anyone to see."

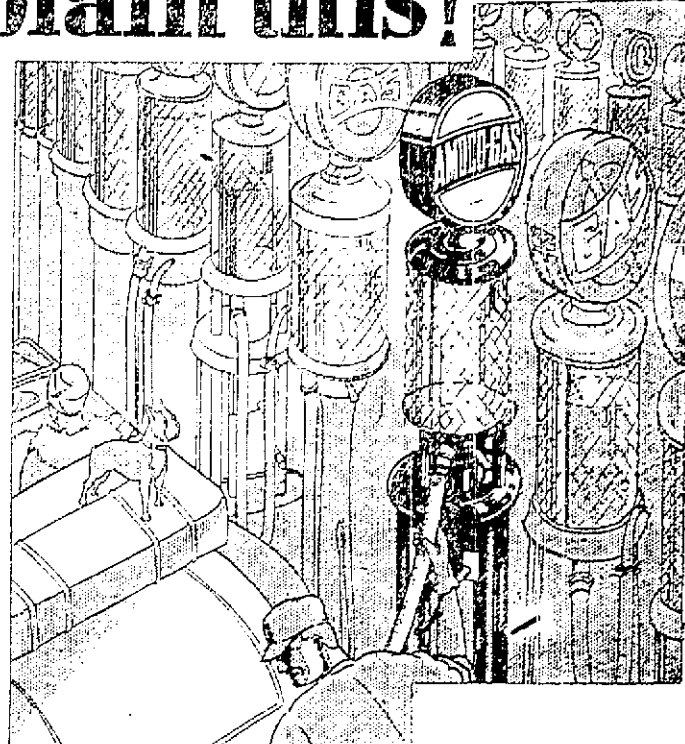

Daugherty told of incidents in his

## Seek Theory For Death Of Woman In New Orleans

Hope Man Last Seen With Charred Woman Can Give Clue As To Murder

(International News Service)  
NEW ORLEANS, March 20.—The man seen in company with Mrs. Baker 54, widow early yesterday before her charred body was found in her burning automobile, was being sought today. Investigators are considering three theories, accidental death, suicide and murder.

They hope the man seen by one of Mrs. Baker's lodgers to enter the automobile with her in back of the Baker home, will identify and discredit the murder theory.

Mrs. Baker was socially prominent and conducted a boarding house after the death of her husband.

## Stock Prices On Downward Trend

Bulls Make Severe Attempts To Stem Tide, As Prices Take Drop

By W. S. COVINGS  
International News Service Financial Editor  
NEW YORK, March 20.—With the exception of the copper stocks, which were lifted to a higher level of values by a new wave of speculative buying, and a few of the hand-conducted specialties, in which the bears were given another hard squeeze, the trend of stock prices was downward today.

The big bulls made severe attempts to stem the tide of speculative selling which poured in from all points in the early afternoon, but uneasiness over the money market situation held off many of the active traders who might otherwise have been trying their luck with the market.

Anacoda and Kennecott, at the head of the coppers, raced along to the highest prices. Anacoda, at 17 3/4, was within a point of the objective set by the bull pools a month or so ago, when 17 1/2 was predicted for the stock. With copper metal selling at 22 1/2 cents a pound, against 12 1/2 cents a little over a year ago, the copper producers are in a position to make enormous profits, the evidence of which is already seen in the wholesale boosting of cash dividends on common copper stocks within the last year and a half.

The steel and lead stocks also started the day at a higher range of prices, with United States Steel and Bethlehem leading a sharp advance. Price of zinc and lead went up with copper today, zinc being boosted \$5 a ton and lead a quarter cent to 7 3/4 cents a pound. Steel production was reported at capacity at Chicago and 95 per cent of capacity at Pittsburgh.

## Pittsburgh Factory Damaged By Fire

Two Girls In Mattress Cover Factory Are Carried To Safety By Firemen

(International News Service)  
PITTSBURGH, Pa., March 20.—Two girls were carried to safety while more than 200 workers in a mattress-cover factory here today battled with flames that were spreading through the room.

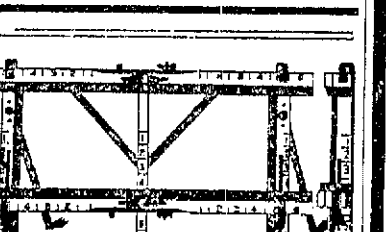

Julia Connelly 19, who fainted when the flames came about her sewing machine, and Marie Koepfer, 38, who was overcome by smoke were carried from the blazing structure. The blaze which caused about \$3,000 damage was started from an overheated motor providing power for a battery of 18 sewing machines in the American Textile Products Plant. An oil covered surface on a machine operated by Helen Brandon, 20, ignited and the flames soon enveloped the long row of machines.

Quick work by firemen prevented the spread of flames to the storage for thousands of dollars worth of mattress cover material.

### Demand For Marble Contest Applications

Lincoln And Garfield School Leads With Request For 200; Washington Second

Numerous calls for application blanks to be used in the city-wide

scholastic marble tournament which will be held here in the near future are reaching the office of the marble tournament manager at the Ben Franklin junior high school, it is reported.

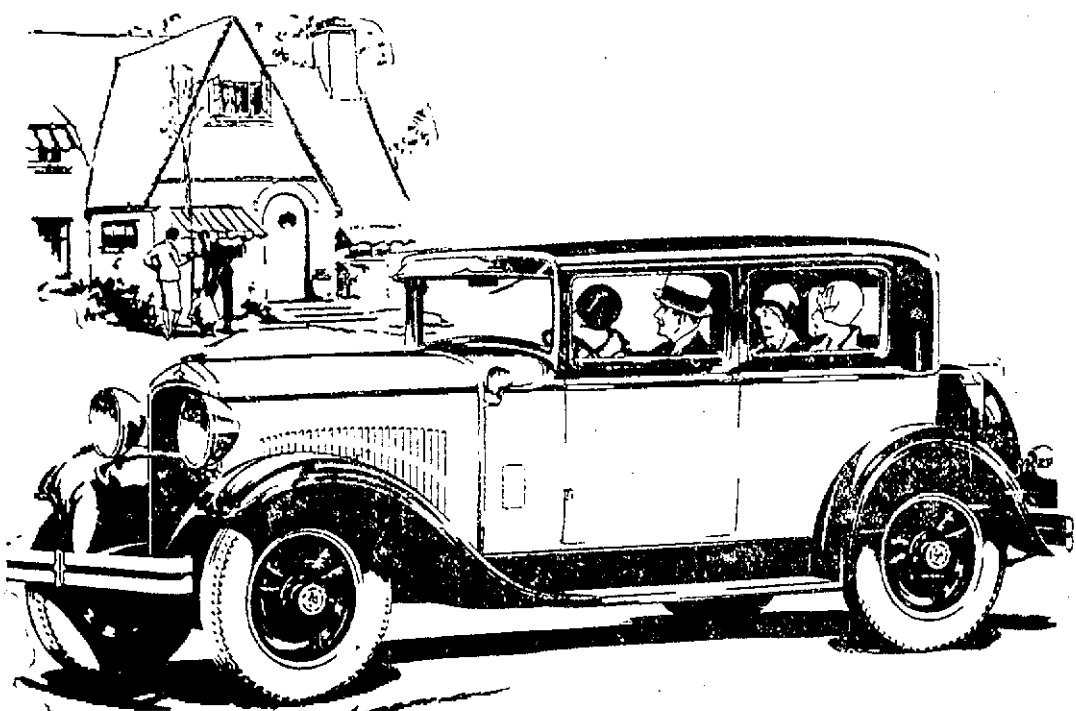

Already the George Washington junior high has asked for 150 blanks while the Lincoln & Garfield school has requested 200. Others seeking inquiries for blanks and the number they desired are as follows: Mahoningtown 115, Rose avenue 100 and Pollock avenue 100.

According to the director of the

tournament, nothing has been heard from the other schools. It is believed, however, that they will send in their requests later.

Sheets containing the complete set of rules for the contest have been mimeographed and will be distributed to all the schools in a day or so.

## WAR TIME LETTERS BY COL. LEASURE

Written From Battle-front During Civil War

From Papers of Late Col. J. S. DuShane

Col. Daniel Leasure  
Picture Property of T. Preston,

(Continued From Tuesday.)  
Near Petersburg, Va.,  
July 3, 1864.

Dear Papa—

I wrote you yesterday and having a few spare moments thought I would write you again as I do not expect to have time tomorrow. From all I can see and hear I expect we will have a grand celebration here tomorrow.

We have an immense number of heavy guns in position and will have more tonight. We had a detail forcing up works last night for heavy guns and I think it is the intention to open up tomorrow morning.

Everything is working well here as far as I can see and hear. We have our payrolls made out to June 30, whether we are to be paid or not I cannot tell but think it doubtful.

Our brigade was relieved from the front line and sent to the second line where we are kind of resting so I

suppose if there is any fighting tomorrow, we will be in it. I received two letters from you on the 27th and 29th with enclosures from Mama and Belle.

The mail has just come and I have received a letter from you dated the 31st and received the sad news of the death of Col. Dawson. It makes me feel so sad to hear such men as he being killed but it is the will of God and we must submit.

I have not yet learned the particulars. There was a letter came to the chaplain from the sanitary commission in Washington with the endorsement "The death of Lieut. Col. Dawson, 100th Pa. V." I have not seen the chaplain yet. Remember me kindly to Uncle, Aunt and Ella and everybody else who may inquire for me. Jack is well. I will write again as soon as I can. Your Affectionate Son,  
GEORGE.

### Murdered Man Had Rabbits Foot But Was Very Unlucky

Supposed Omen Of Good Luck Is Turned Over To Wife Of Victim By Coroner

Discovery yesterday that William Jones, who was shot and killed by Beattie Moore, housekeeper, at Wampum on the night of February, carried on his person the left hind foot of a rabbit, would indicate that a rabbit's foot won't save a man from the fury of a jealous woman.

The rabbit's foot was found when Mrs. Jones, wife of the murdered man, called upon coroner J. P. Caldwell to get a watch and some money which had been found on Jones the night of the murder. In taking the money out of a wallet, Coroner Caldwell felt something in a pocket at the side. Fishing it out he found that it was the hind foot of a rabbit.

It is an old superstition, particularly with negroes, that the left hind foot of a rabbit brings luck to the person who carries it. This is especially true when the rabbit has been killed at a certain stage of the moon. Whether the rabbit whose foot was found in Jones' pocketbook was killed in the light or the dark of the moon, there is no way of knowing. Certain it is, however, that it did not bring luck to Jones.

The rabbit's foot looked as though it had been carried for a long time. If this was the case, Jones was particularly unlucky, as his wife had left him some two years, before his housekeeper shot him. The foot was turned over to Mrs. Jones.

The moral of this story is that you can't always rely on a rabbit's foot for luck.

### Cancel Meeting At Tabernacle Here

Rev. Brown, Christian And Missionary Alliance Superintendent Called Home

Rev. G. Verner Brown of Wilmington, Del., superintendent of the Christian and Missionary Alliance who was to have spoken this evening at the Alliance Gospel Tabernacle, on Pearson street, and on Thursday evening at the Hoover Heights Tabernacle was compelled to return to his home yesterday on account of the death of a dear friend.

Clark, returned missionary from South America will show slides of photographs taken by himself while on this foreign field. Rev. Clark will also speak on Saturday evening. He is a very interesting speaker and no doubt will bring a worth while message this evening and Saturday evening.

There will be no meeting at the Hoover Heights Tabernacle on Thursday evening.

### Special Services At Highland Church

Special preparatory services for the observance of Communion to be conducted on Sabbath morning, March 24, in the Highland United Presbyterian church will be held this evening, Thursday and Friday evenings. This evening, the pastor, Dr. C. J. Williamson will preach. On Thursday evening, Dr. Homer Henderson of the United Presbyterian church at Grove City will occupy the pulpit and Friday evening, Dr. S. E. Irvine of the First U. P. church of this city will speak.

### Foreign Service Given Preference

Those Enlisting For Foreign Service Will Have The Right Of Way

Foreign service assignments in the United States Army are to be given the priority on assignments of all original enlistments, according to the order received here by Sergeant C. E. Young, officer in charge of the recruiting station in the city building.

This is the first time in many months that the Army Recruiting Service has been given permission to do this.

Heretofore, men enlisting for the first time have been urged to accept service in local regiments. Now in accordance with the orders, they will be accepted in numbers for foreign service, ports in the Philippines, Hawaii, Panama and the Pacific Coast.

The war department hopes that the opening of spring as well as the enlarged opportunity to travel will cause a heavy enrollment and has arranged for two transports, S. S. "Cambrai" to sail on April 2, and S. S. "Chateau Thierry" to sail on April 18 from the Army base at Brooklyn with 700 men each.

For further and detailed information, the young men desirous of seeing service with Uncle Sam's forces in foreign lands, should call on Sergeant Young in the city building.

ST. CLAIRSVILLE, O., March 20.—Belmont county official say they expect to release Mrs. Vera Hollan, 29, Bellaire, who fatally shot her lover, Carl Vandry, 38, Wheeling, married, when he attempted to attack her with a razor because she was unfaithful to him, he alleged, during row in her home in Bellaire.

Vandry, object of non-support and Mann act charges in Wheeling, had been in jail in Bellaire for shooting Mrs. Hollan and for breaking up furniture in home, the inquest revealed.

### JELLIES AND JAMS FROM THE STORE

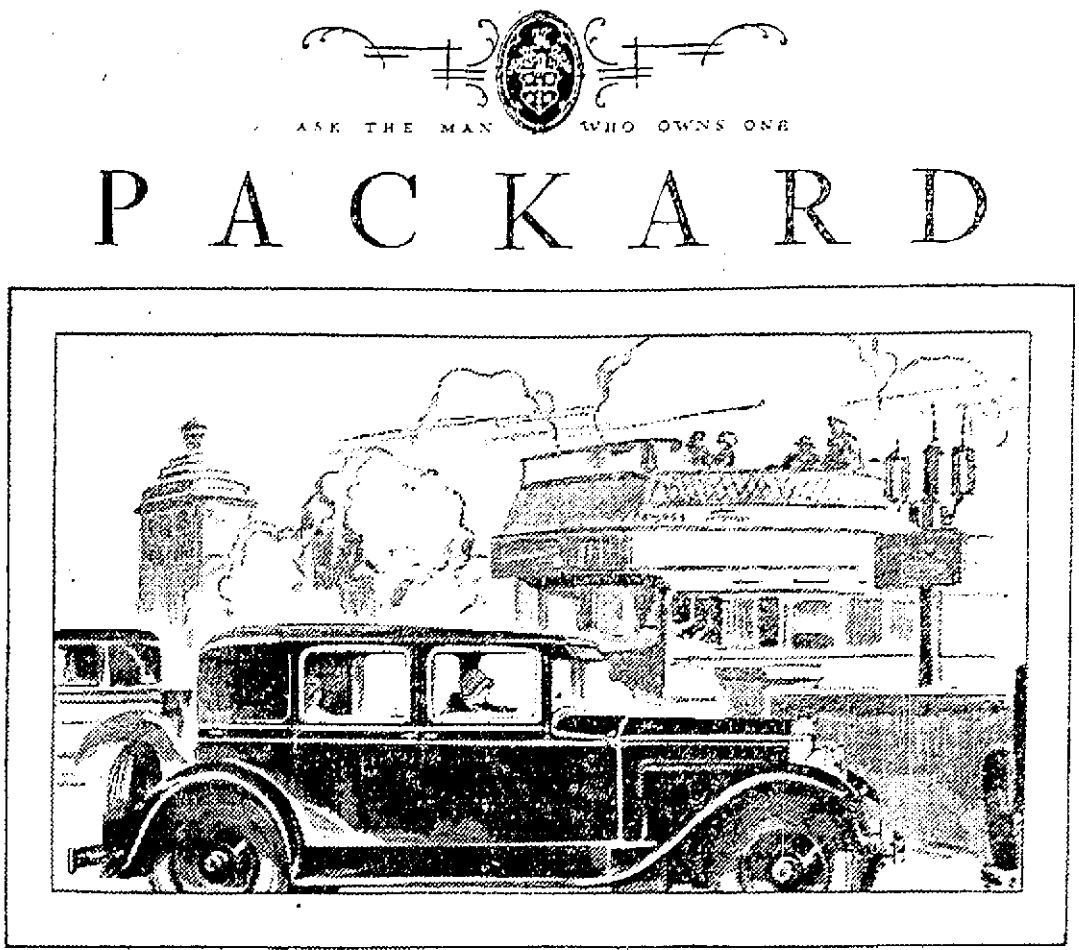

Make the Whole Meal More Enjoyable

Jams, jellies and preserves are marvelous energy foods for children, athletes, and all physically active people. In addition to that, they make the whole meal more delicious. They are appetizing spreads for bread, accompaniments for meats, and tasteful additions to toast, muffins and hot breads.

Another good thing about jams, jellies and preserves, all grocers today carry them. These bought foods are delicious. Their purity can be depended on. They contain appetizing fruit acids, and beneficial minerals and vitamins.

Thousands of women and girls today are permanently injuring their health by dangerous weight reduction. All children should be a little overweight, if anything, as a protection against disease.

It is almost a rule of health that those foods that are made more delicious by sugar are the best for us to eat. Eat daily plenty of cereals, fruits, vegetables and milk, sweetened for perfect enjoyment. See that growing children eat enough regularly. Eat for nutrition and enjoyment. Good food promotes good health. The Sugar Institute.

## New, Low Prices for Standard Eights

THE Packard Standard Eight lists today at \$2275 to \$2675, at the factory—prices comparable to those of its famous forerunner, the Packard Six.

When Packard decided to concentrate its vast resources entirely on Straight Eights, it was with the desire ultimately to provide the advantages of Eight-in-Line design at no increase in prices. The tremendous sales success of the Standard Eight, since its introduction last September, made possible the reduction of \$160 March 4th.

The Packard Standard Eight today embodies all of the features which mark Packard leadership. The famous Straight Eight motor, with its nine bearing crankshaft, is unchanged in design. Instant Chassis Lubrication

protects precision and assures long car life. The unique and exclusive Shock Absorbing System adds new ease to riding and new safety to driving—for it includes a device which positively eliminates front wheel "shimmy". Packard has but one standard of quality—the highest—and the Standard Eight is a Packard in every sense of the word.

When may we put a car at your disposal for a demonstration?

If you prefer to buy out of income, you will find the Packard Payment Plan most attractive. Many take possession of their new cars without any cash outlay—because the used car allowance equals or exceeds the down payment on the new car.

## Plan Refunding Of Scottish Rite Cathedral Debts

Matter Will Be Presented To  
Co-ordinate Bodies At  
Dinner March 29

Committee Of 110 Members  
Named To Represent All  
Masonic Bodies

Steps toward refunding the debt of the Scottish Rite Cathedral at New Castle were taken yesterday by the Cathedral board of directors in the appointment of a committee numbering 110 members of the consistory and all Masonic organizations using the building, to consider ways and means for stabilizing its finances.

The Cathedral was financed substantially by the sale of first and second mortgage bonds which were bought as an investment as well as an expression of loyalty and goodwill by many both within and without the order, income from the building, while increasing, has failed to meet the carrying cost of the financing.

Full details of the situation will be laid before the newly created committee at a dinner to be held March 29 at the Cathedral.

Representatives of 51 towns and cities in the Consistory Valley of New Castle, a committee of four, including the chief officers of each of the Masonic bodies using the Cathedral, certain members at large, including the board of directors, comprise the committee. It will be asked to protect its property and the rights of the investors therein and to assist in shaping a line of procedure.

The board has been considering a plan, adopted under similar circumstances elsewhere, by which it is hoped to avoid either assessment

on members or the raising of their dues.

Representatives on the committee from the various bodies using the Cathedral are:

Lodge of Craft—Harold Sampson, James H. Elmore, Earl C. Ramsey, W. Stanley Trues.

Matronage lodge—Louis E. Round, Bruce H. Hull, A. L. Tindal, George E. Watson.

Westminster lodge—Harry Pearce, John F. Haven, Judson Dodge, Clarence Irwin.

New Castle lodge—Bruce F. Love, J. Elder Bryan, J. Johnston Fisher, Jacob R. Lucas.

Lawrence commandery—John F. Love, James L. Pink, Edward M. Fisher, G. Dallas Hildebrand.

FLY FILMS HELP AVIATORS  
Flights of birds are expected to aid aviators who study the pictures being made by Beron C. Shiba, the young Japanese who has been filming the methods used by the feathered flyers. Shiba's camera works so fast that it requires 20 minutes to show on the screen all the pictures photographed in one second, so that every movement of the birds can be studied. Shiba claims that his pictures also enable an aviator to see like a bird.

# The World's Loveliest Clothes... say these greatest experts "actually Re-Newed by Lux"

Amazing experience of  
All Great Movie Studios  
New York Musical Shows  
Famous Dressmakers  
Buyers for 132 Great Stores

HERE are the world's greatest authorities on lovely modern clothes—with experience to help you!

Caring for million-dollar wardrobes, these big organizations tested many different cleansing methods and soaps.

And they have found that—"The original loveliness of fabrics can actually be Re-Newed again and again with Lux—and with Lux they last more than twice as long."

Following the same tested rule—cleansing all nice things in the lovely, magical Lux suds—you, too, can keep them enchantingly new so very much longer!

Every Musical Show

In New York uses Lux to double the life of stockings. (Above) Harriet Hector, lovely dancer in "The Three Musketeers." All the stockings of cast and chorus of "The Three Musketeers," like those of every musical show on Broadway, are cleansed with Lux.

Fifth Avenue Dressmakers

Insist upon Lux to keep stockings and lingerie worn by mannequins with the smart costumes they model. Like new twice as long. (Above) A charming mannequin models a suit in gingham checks—an important Bergdorf-Goodman design for spring.

Million-Dollar Wardrobe Test Proves  
Lux Most Economical

Above, wardrobe mistress and costume director discuss tests involving million-dollar movie wardrobes. "A box of Lux seems like a small thing," Metro-Goldwyn-Mayer officials say, "Yet it stands for dollars upon dollars saved in the studio." Lux saves clothes and money because, made of the purest materials known, it has no harmful alkali... and with Lux there is no rubbing to weaken or strain.

Great Movie Studios

all use Lux to double the life of lovely clothes, such as this enchanting negligee of chiffon and satin, worn by Billie Dove, First National Star. Billie Dove, like other stars—and all the big movie studios—trusts fine things only to Lux!

Department Buyers

92% of those interviewed in 132 leading stores—insist on Lux for their own things! (Above) A clever buyer selecting filmy imported lingerie. Knowing how important the right cleansing is, these experts choose Lux!

## Why are Concrete streets preferred?

Because they are—

Most durable  
Smooth and even-surfaced  
Rigid and unyielding  
Economical  
Clean and beautiful  
Safest in any weather  
Low in maintenance costs

No other paving material can be "just as good"! Pave with concrete exclusively.

### Professor Calls Iowa Workmen Conservative

(International News Service) IOWA CITY, Ia., March 20.—The Iowa workingman is a conservative soul. So Theodore D. Yoder associate professor in the College of Commerce at the University of Iowa has decided after an extensive study of the "attitude" of the state's laborers.

Little political radicalism exists among them Yoder has discovered. They are he says "distrustful of progressiveness." Consequently the average working man of the state is "afraid of a purely labor or farmer-labor party."

**'Grief' Is Title Of Book  
On Iowa Bank Failures**

(International News Service) DES MOINES, March 20.—"Grief" is the simple and poignant title of a book added to the Des Moines public library.

And it's not a realistic novel by a midwestern author. It's written by an Iowa banker, L. F. Schmidt who describes in it the Iowa bank failures and gives his experiences.

In a preface the author says that he wrote the book "to pass on to the bankers... his experiences in the hope that any information contained may be of some benefit."

### Princess Remains In Home, Subpoena Stands Unserved

Princess Of Thurn And Taxis  
Evades Persons Seeking To  
Serve Papers

(International News Service) UNION CITY, Pa., March 20.—Guards, who for the past three days have surrounded the home of Lida T. Micolls, the Princess of Thurn and Taxis, in an effort to serve her a subpoena, were withdrawn today. No statement was forthcoming from authorities about the latest move to have the princess testify at a bankruptcy hearing in Pittsburgh, but it is believed the subpoena will be sent back to Pittsburgh marked "unserved."

The princess is wanted to testify about reported hidden assets of her uncle, J. V. Thompson, bankrupt coal baron. The hearing is to be held in Pittsburgh Friday before Watson E. Adair, referee in the bankruptcy.

The Princess of Thurn and Taxis, it was reported, believes the latest move is a ruse to draw her out of the home. Up until late this morning no one was seen to leave the house.

**Street Department  
Being Kept Busy**

Harry Moore, commissioner, city streets department, today stated that employees are being kept busy in various parts of the city.

The department is giving first service to streets where families have been bereaved by the death of members.

In some instances it has been necessary for the department to drop other work and place ashes so that funerals could proceed.

Eleanor Johnson, eight, 1015 Cunningham avenue; scarlet fever.

**Travels Thousands  
Of Miles To Secure  
Famous Autographs**

(International News Service) PITTSBURGH, March 20.—Joseph F. Mikulec, of Philadelphia, whose mania for collecting autographs has made him a globe trotter for 28 years, invaded Pittsburgh recently for more autographs for his collection of more than 200,000 "John Hancock's."

He sought out Mayor Charles H. Kline and other city officials who promptly added their signatures to those of three crowned heads of Europe, the presidents of 10 republics, Benito Mussolini, Calvin Coolidge and Colonel Charles A. Lindbergh.

Mikulec's book of autographs is a formidable volume. It weighs 56 pounds and has 2,000 pages. He uses a pushcart to take it from one celebrity to another and from town to town.

The globe trotting autograph hunter has traveled through 30 countries, mostly on foot. Twice he hiked from coast to coast and a dozen times he worked his way to Europe and South America.

The presidents of a half dozen Latin American countries gave him their autographs. In France, Marshal Foch, Premier Briand, and Min-

ister of War Painleve affixed their signatures to the book. Mussolini and Gabriele D'Annunzio, the poet, head the list from Italy. Albert King of the Belgians, also affixed his royal "John Hancock."

Mikulec said his collection is priceless. "I shall never sell it, but hope to have it placed in a museum someday," he added. He intends to retire to a farm in the near future where he will write a book on his travels and experiences as an autograph hunter.

## Without Theory In Brooklyn Gang War, Policeman Killed

Fail To Link Slain Brooklyn Officer With Either Of Rival Warring Factions

NEW YORK, March 20.—Twenty-four hours investigation of the gang war flare-up in Brooklyn early yesterday had failed to reveal any evidence of the actual connection of Patrolman Daniel J. Maloney, killed during the gun fight, with either of the warring factions.

Announcement that Maloney had had two pistols, in addition to his patrolman's service weapon, on his person at the time he was killed gave rise to reports that he had served as a "gun tender" for the gangmen. Nothing was uncovered to support this theory, police said today.

## "Fun Night" Planned By Grove City Men

Seven Hundred Men From Bible Classes Of Borough Will Participate In Event

GROVE CITY, March 20.—Elaborate plans are now being made by a special committee from the Men's Bible class of the United Presbyterian church for the entertaining of the members of the men's classes of the Grace M. E. church and the First Presbyterian church Friday evening of this week. The affair will be the third party of this nature and will be known as "Fun Night."

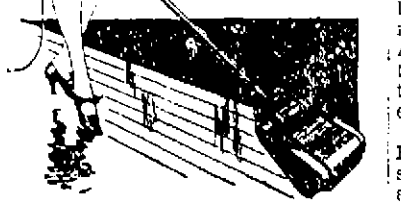

On account of the small quarters in the United Presbyterian church the Keller gym has been secured by the committee for the purpose of holding the event. The program that is being arranged promises to be one of the greatest events that has ever been attempted and every man that attends is promised a night of entertainment and enjoyment that will be remembered.

Will Speak On A Subject That Is  
Of More Than Ordinary  
Interest

Prof. James K. Pollock of Ann Arbor, Michigan, one of the instructors in the University of Michigan, and well known native born resident of this city, will make the address at the meeting held on the evening of April 8 in the Highland United Presbyterian church under the auspices of the Woman's Club of this city. The occasion is what is known as guest night.

The affair will be open to the members of the club and their friends and it is anticipated that it will be quite interesting to all.

Address of Prof. Pollock will be on "The New Germany," a subject on which he is eminently qualified to speak, having spent some little time in Germany, as well as other European countries studying the political conditions existing there.

## Dr. W. C. Wallace Will Be Speaker

Westminster Women's Club To  
Have Musicale At  
Pittsburgh

(Special To The News)  
NEW WILMINGTON, March 20.—Plans have been completed by the Westminster Women's club of Pittsburgh for a reception and benefit musicale to be given Tuesday evening, April 2. This affair is to be held in the English room of the Fort Pitt hotel, Pittsburgh, proceeds to be donated to the college building fund.

Artists on the program are Alan B. Davis, director of the college conservatory; Miss Mable King a graduate of Westminster and a well known singer; and Mrs. Christine Miller Lucas another artist of ability and a graduate of Westminster.

Alumnae from the Pittsburgh district have made plans to entertain a large group of former students at the musicale. President W. Charles Wallace will speak at the gathering.

## STOMACH UPSET

Get at the real cause. That's what thousands of stomach sufferers are doing now. Instead of taking tonics or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition, chronic trouble with undigested food? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. Know them by their olive color. They do the work without griping, cramps or pain. All Druggists. Take one or two at bedtime for quick relief. Eat what you like. See 28c. 50c.

DRIVE  
The old car  
another year!

DEPRECIATION on an automobile is greatest the first year, becoming less each succeeding year; so, you see, it's good business to drive the old car another year, and use a part of that money to modernize, beautify and happyize your home. Nothing pays back so much in genuine satisfaction as money spent for good home furnishings!

## TEN HERBS WAS GREAT HELP TO 70-YEAR-OLD MAN

Benefited His Stomach, Liver, Kidneys  
And Bowels And Relieved  
Rheumatism.

"I am a man 70 years old and when a medicine can help a man of my years the way Ten Herbs did, it must have merit; so I am glad of the opportunity to publicly recommend your preparation and thereby help others."

MR. LEWIS DAVIS

to get on the right road to health," was the statement of Mr. Lewis Davis, 6033 Lirick Street, East End, Pittsburgh, Pa., to the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington Street, New Castle, where he is daily demonstrating this great natural medicine to crowds of people.

"My stomach used to be in a bad condition," Mr. Davis continued. "I had a poor appetite, and what little I ate would sit up on me and cause so much gas that I would belch loudly. All my organs seemed to be in sympathy with my stomach, as none of them worked right. I was so constipated that it brought on complications. My kidneys seemed to be disordered, as there were terrible pains across my back. I had rheumatism in my legs, and the pains would shoot from my knees down. My liver did not work properly, as I was bilious, and had a coated tongue and bad taste in my mouth. My general condition made me so nervous that I could not sleep right, and I had to arise every little while during the night."

Ten Herbs changed all these conditions. I have a good appetite, and can eat almost anything without the rifting and belching. My bowels are regular, and my liver and kidneys are working like they should. Pains have left my back and I do not have to arise at night. Biliousness, coated tongue and bad taste has left me, and rheumatism has been greatly relieved. My sleep is sound all night long. I have more ambition and feel healthier and stronger in every respect. I sell merchandise, and have told many of my customers about Ten Herbs, as it is surely a wonderful medicine."

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington Street, New Castle, where he is daily meeting the public and explaining the merits of this medicine. Free sample given.

## Hospital Bonds Cannot Be Sold

Find Legal Requirements Were  
Not Met In Mercer County  
Issue

MERCER, Pa., March 20.—It is understood that the attorneys who have been investigating the bond issue in this county that would provide \$200,000 for the erection of a Tuberculosis hospital have agreed that the issue could not be sold to any circumstances bonding house due to lack of certain legal requirements.

Failure to file statements and insert publications have jeopardized the issue, it is said. Having the legislature pass a bill to remedy the situation is talked of by the men who are interested in the hospital.

# To Budgeteers

"But," says many a harassed housewife trying to be a bookkeeper—"that leaves only \$30 a month for clothes! And how far does \$30 go when you're buying clothes?"

There are so many things to be paid for before clothes can be considered—the rent or the interest on the mortgage, the bills from the grocery, the butcher, the gas station, the furniture store and all the other people who send bills on the first of the month. Thirty dollars a month doesn't seem very much for clothes—

Yet \$30 a month will go a long way at this store!

And you not only get more for your money here! You can pay for what you get more conveniently! Don't, however, consider us as just another credit clothing store!

The Goldman store is a clothing store first, and a credit store afterwards—a long way afterwards! Because it is part of a nation-wide system of big stores in more than fifty cities, each store shares in the buying power of this great group of stores. The Goldman stores are one of the largest buyers—and sellers—of clothing in the world. They buy in tremendous quantities.

## O'Neill Store To Move Into New Location, April 1

Beginning with Monday, April 1, O'Neill's ready-to-wear shoppe for women will be located at 293 East North street, the room just around the corner from North Mill street, formerly occupied by the Women's Exchange.

D. T. O'Neill, proprietor of the shoppe, said today that for a period of 28 years the firm has been located on Mill street. The store first located in what is known as the McKee block and remained at that site up until six years ago when it was moved to the present place of business.

Curious Peer At  
Puzzling Display

To the curious those who peer into the iron-bound chest display window of the Pennsylvania-Ohio company in wonderment, the company can only say wait until the opening on Friday morning, March 22 at 11 o'clock.

The P. and O. window containing the chest is attractively decorated.

## BESSEMER

The huge chest stands upright in the center and carries with it the suggestion of the Spanish Main, Captain Kidd and the shiny yellow pieces of eight.

Miss Mary Smith, English teacher, was in charge of the assembly meeting of the teaching staff of the Bessemer high school which took place in the school auditorium on Tuesday evening. Twelve teachers were in attendance.

The evening's discussion pertained to discipline and at the close of the meeting it was decided that a detention room system be employed in the future.

## THE RIGHT WAY TO BANISH FAT

Combat a cause which modern research has discovered. Turn food into fuel and energy, rather than into fat. Supply a natural element which your system lacks. That is the method embodied in Marmola's prescription tablets.

People have used Marmola for 20 years—millions of boxes of it. They have told others the results. Now, in almost every circle, you can see the results in new beauty and new vim. Why not learn the way to attain them?

an informal social hour and refreshments. Miss Mary McLaughlin, chairman of the social committee, was in charge.

## Forecast Better 1929 Wheat Crop

HARRISBURG, March 20.—Prospects on March 1 according to the Federal State Crop Reporting Service were bright for a larger wheat crop in Pennsylvania than a year ago. Due to snow protection the condition of wheat was 10 per cent higher than a year ago for the 1928 crop.

Wheat stocks on farms and quantity shipped are both below average according to the report. Last year's harvest was the shortest in several years and it is reported that an account of the quality—a larger percentage of the crop than usual was ground for feed. There seems to be a shortage of Pennsylvania wheat for milling in some districts the shortage is so great that it is necessary to ship in wheat from other states for chicken feed.

## Special Services At Tabernacle

A special revival campaign and missionary conference will commence this evening in the Pentecostal Tabernacle, South street. Rev. Thomas J. Logan, D. D., will conduct the services; also a missionary from Ja-

Consequently, they get better values and better prices than any single store! And not only better prices, but better materials, better workmanship, better styles.

More than a million people buy from these stores—so our clothing must be good. Many of them pay cash, because they have found they can get the best values in our stores. But paying cash cannot earn better prices or values than our purchase plan of deferred payments.

When we open a deferred payment account for you, you pay only quarter of the purchase price of the clothing you select—and the balance in smaller payments over three months. You can buy clothing here as you buy an automobile, as you acquire a house or a vacuum cleaner. You lose nothing by buying our way—and you gain so much more!

To every budgeteer who is trying to make the family income go farther, trying to make the monthly money meet so many obligations, we extend a cordial invitation to visit this store!

And just see how far \$30 a month—or whatever your budget says you may spend—will go to make a better dressed family!

Reduction Policy

By WILLIAM K. HUTCHINSON  
International News Service Staff  
Correspondent

WASHINGTON, March 20. — The American people must wait two years at least for any further reduction in Federal taxes.

This was the opinion expressed today by Vice President Charles Curtis, Senator Reed Smoot (R) of Utah, and other administration leaders. A sharp increase in governmental expenditures, uncertainty over the business outlook for 1930, and a possibility that tax collections this year may not reach the amazing totals of 1928, they said, prohibit any effort at tax reduction either in the coming special session or at the following regular session of the new congress.

**Depends On Surplus**  
If the government's books show a large surplus at the end of the next fiscal year—on July 1, 1930—then tax reduction legislation probably will be considered at the second session of congress, which will start in December, 1930. That was the

only hope held out for the American taxpayer.

The biggest fly in the tax reduction ointment apparently will be the total of congressional appropriations for the next fiscal year—the highest in the peace-time history of the government. In all, congress authorized \$4,663,564,000 in appropriations for the period July 1, 1929 to July 1, 1930.

**Would Increase Cost**  
This was \$331,000,000 in excess of the amount originally appropriated for the current fiscal year, which also saw \$221,000,000 in deficiency appropriations. The likelihood of similar deficiency appropriations for the next fiscal year would only increase the cost of government that much more.

The year 1930 will provide the Hoover administration with its greatest financial problem, according to the Republican spokesmen. The revenues and expenditures for the present year are fixed, with the government undoubtedly about to show a surplus on its books. But while the expenditures are fixed—and fixed sharply higher—for next year, the government's revenue depends entirely upon the taxable profits and income of citizens and business. Consequently, administration leaders are hopeful that business prosperity will continue throughout the year at the pace it maintained in January and February.

## Calvin Coolidge Silent Regarding New York Jaunt

(International News Service)  
NORTHAMPTON, Mass., March 20. —Ex-President Calvin Coolidge refused today to discuss his visit to New York this evening.

Reservations were made for him on the 3:10 p. m. train, due in New York at 7:40 p. m.

Mr. Coolidge refused to be interviewed on any subject.

The former White House Lincolns, which the ex-president used during his last year as president and which he is purchasing from the government has arrived and is housed in a downtown public garage.

## De Lillo Given School Honor

Named As Soloist With Peabody  
Symphony Orchestra At  
Baltimore

WALTER DE LILLO

The many friends of Walter De Lillo, whose home is at 338 Laurel boulevard, this city, but who is at present a student in the Peabody Conservatory of Music at Baltimore, will be interested to learn that he has just been selected as violin soloist with the Peabody symphony orchestra.

The selection as soloist for the symphony is an honor coveted by many Peabody scholars.

Word is also received that in addition to this high honor, DeLillo is actively engaged in other musical activities in conjunction with his conservatory work. On May 20 he will present a concert at Frederick, Md. At this time his accompanist will be Miss Virginia Carty, who is secretary of Peabody.

Tonight, DeLillo will broadcast over station WBAL, Baltimore, with the Vernon Trio which functions under his direction.

During the period that DeLillo was a student in the local high school he was a member of the school orchestra. He also played in a number of local instrumental outfits and participated in scores of local musical projects and performances.

## Wanamakers' Will Leaves Fortune Of \$56,000,000

Will Of Late Rodman Wana-  
maker Disposes Of Estate  
Valued At Enormous  
Figure

(International News Service)  
PHILADELPHIA, March 20.—The will of Rodman Wanamaker, head of the Wanamaker stores, on file at Norristown today, disposes of an estate valued at more than \$56,000,000, exclusive of real estate, which is believed to be the largest ever left by a resident of this city.

The estate is to be held in trust, the instrument directs, and the bulk of the income is to be shared by his children, John Wanamaker Jr., Mrs. Hector Munn and Mrs. Gurnee Munn. The personal property was appraised by Archibald W. Norman and Thomas L. Prendergast on behalf of William L. Nevin, vice president of the Wanamaker stores and managing executor and trustee of the estate. The appraisal figure was \$56,914,280.

Some 60 insurance policies are included in the estate, it is said. The total value of the policies, which were held in 44 companies in this country, Canada and South America, has been placed at \$6,000,000.

## One Killed, Four Are Burned; Fire Ruins Oil Plant

Terrific Explosion And Fire At  
Sun Oil Company In Mar-  
cus Hook Occurs  
Today

(International News Service)  
CHESTER, Pa., March 20. — One man was killed and four others burned, one possibly fatally, as fire threatened the entire town of Marcus Hook near here today following a terrific explosion in the Sun Oil Company's plant there.

The blaze started at 1:45 a. m., when still No. 7 filled with gasoline exploded showering the employees nearby with flaming oil. Shortly before 8 o'clock the flames were still burning furiously as firemen from six neighboring towns sought to bring them under control.

James McDee, Marcus Hook, was killed.

The injured: Joseph Bennett, Linwood; James Urian, Chester, burns about the legs and arms; Raymond Noden, Parkside, burns and Victor Byrd, Claymont, Del., burns about the arms. Bennett is said to be near death in the Chester hospital of burns.

The cable story that Spain's dictator will fall when Alfonso withdraws supports neglects to say on whom.

## N. Y. U. Buildings In "Village" Great Attraction For Students

By HOMER H. METZ  
International News Service Staff  
Correspondent

NEW YORK, March 20.—Why do so many of our young men and young women want to attend New York university in preference to other metropolitan institutions of learning?

The answer is to be found in the fact that no less than 10 of the university's buildings are located in the heart of Greenwich Village, which to the collegian is Utopia. Bagdad and Paradise rolled into one.

Think of how nice it is to attend classes in a staid old building overlooking romantic Washington Square, where the stern-faced father of his country stands in stately waiting over the artists, the models, the writers and other Bohemians who inhabit the Latin quarter, including, of course, the Bronx stenographers, the Old Lady from Dubuque and the Brooklyn drugstore cowboys, who visit the district now and then.

### After School Hours

Then, picture if you can the glories that are the students when classes are dismissed for the day.

A stroll through the square from where the university buildings are located leads the romance hungry college boy and girl to such fascinating places as the Open Door, Romany Marie's Garrett, where Theodore Dreiser and Sinclair Lewis sip tea occasionally; the Pepper Pot, the Black Cat, the Purple Cow, the Alimony Jail, the Village Mill and, of course, the stable known as the Provincetown playhouse, where neckties and other things are flowing, where dramatic art flourishes for art's sake and the hope that a Broadway producer will be in the audience.

There are oodles of fun to be found by the college boy or girl in these places. And there are always hangers-on to be found in them who will delight in telling the collegian as glamorously as possible all about his or her inhibitions, fixations, flirtations or what-have-you.

Tiring of visiting resorts such as those first mentioned, the collegian can prow among ancient book shops, where an occasional first edition is to be found.

If he is of a religious turn the collegian can go to church. Like everything else found "South of Fourteenth Street" the village's churches are bizarre and unusual. There is one, in fact, overlooking Washington Square south that boasts of an annexed apartment house that more than pays expenses when the press of circumstances influences the congregation's weekly offerings.

Church in Name Only.

And there is another one that is a church in name only. It is situated in the basement of a studio building and thus eliminates all but a minimum of the expense that seems to attach itself to organized religious groups.

The movie theatres are all different than those found 40 blocks to the north. A village movie theatre attaches primary importance to "atmosphere" and secondary importance to the qualities of its offerings.

At the present time there are 27,000 students enrolled in the Washington Square branch of the university and there isn't one of the lot who doesn't regard himself as a "real genuine villager."

## East Side Home Damaged By Fire

Two Alarms Call Four Departments To Blaze On Lathrop Street

Members of the fourth ward and central departments, answering an alarm from box 43 at 1:35 this morning, found a bad fire raging in the home occupied by Victor Poplar and Harry Pagley at 811 Lathrop street. They sent in a second alarm, calling the third and fifth ward departments. The blaze was extinguished with a loss of approximately \$600 to the home and contents.

The blaze started under a front stairway and had secured a good start before the firemen arrived. It was checked after it had burned up to the second floor.

According to Fire Chief Lynn a strong odor of turpentine was noticed in the house.

## Parents-Teachers Meet At Highland

Dr. Green Discusses Platoon System At Meeting On Tuesday Evening

Nearly 200 parents, teachers and other interested visitors were in attendance at the meeting of the Parent-Teachers' association of the Highland school last night. The meeting took place in the kindergarten room of the school building.

The purpose was to better acquaint the parents and teachers with the system now being used in part of the schools of New Castle, known as the "platoon system" or "the work, study, play system." The merits of this were ably presented and commented upon by Dr. C. C. Green, superintendent of city schools.

Dr. Green remarked that New Castle was the fourth city in the United States to adopt the new system, being preceded only by Gary, Ind., Kansas City and Kalamazoo, Mich. He stated that while it has been adopted here, not all of the schools in the city are operating on this basis as yet.

The superintendent, in noting the rapid expansion of the system, said that at the present time 160 cities of the country have adopted the new plan.

The meeting was opened with music by grade 6A pupils, ably directed by Miss Helen Allen. "Lantern Light," a play of New England witchcraft, was then given by the school children under the supervision of Miss Pearl Hutchinson, dramatic and art teacher at Highland. The presentation showed the superior training of the children and were thoroughly enjoyed by all.

Immediately at the conclusion of Superintendent Green's address, the president of the association, Mrs. John Elliott, extended an invitation to everyone to stay for the social period which followed. Refreshments were served by a committee of which Mrs. Ernest Sutzinger was chairman.

The fine response given the meeting last night is due to the well planned efforts of Mrs. Harry McKee, Jr., chairman of the publicity committee. With the aid of Miss Jean Jackson, art teacher, Mrs. McKee had made art posters announcing the meeting. These were placed in conspicuous places and undoubtedly were largely responsible for the fine attendance.

## WILL REHEARSE MUSIC FOR EASTER SUNDAY

## Girl Wounded By Her Lover, Weds Would Be Slayer

Dan Cupid Substitutes Gun For Arrow And Gets By In Ohio Case

(International News Service)  
WHEELING, W. Va., March 20.—Substitution of a 38 calibre revolver for the bow of Dan Cupid, which at first threatened to wreck the romance of Thomas Weekly, 23, of Powhatan, O., and Miss Winnie Ramsey, 21, of Jacobsburg, O., has proved its effectiveness.

Weekly, at liberty on \$2,000 bail for action by the Belmont (O.) county grand jury on a charge of shooting the girl, and Miss Ramsey were married here Saturday by Rev. John Mayskens, it was revealed today. Weekly is charged with shooting and wounding the girl when she returned from a church service with

## Miss Rades Gives Talk At Y. W. C. A. Board Meeting

National Board Representative Speaks At Local Board Meeting

Members of the board of directors of the local Young Women's Christian association had their monthly meeting Tuesday evening in the association building. In addition to routine business, reports and etc., Miss Lucile Rader of the National Board of New York City was a guest and gave an interesting talk.

Miss Rader is one of two persons of the National Board of the Y. W. C. A. sent out this year in a project experiment for the promotion of Y. W. C. A. work in the state of Pennsylvania. To help local associations to extend their work into adjoining towns and communities, organizing various groups which comes under the work

of the Y. W., including girls Reserves, health classes, business girl, etc.

Miss Rader told of her work since last September when she began this particular work. Stating there are 38 city and town Y. W. associations and one county association in the state of Pennsylvania and 43 student associations within the state.

The local Y. W. has been doing some in this line of work of extending the work of their association in scheduled for hearing. This is the near-by towns. In Ellwood City they have a gymnastic class and in New, since Judges Hildebrand and Cham-Wilmington a Girl Reserve group, began hearing testimony.

Miss Rader expects to be in the city until Friday to assist in this work at the local Y. W. association.

**BRAKES**  
cause accidents  
or prevent them  
-which kind are yours?

It only takes one skid—one emergency in which brakes fail to hold—to cause an accident. It might be slight—perhaps a jammed tender—and it might cost a life. Why gamble with chance? Brakes, out of balance or not equalized will cause a car to skid to the right or left. Four-wheel brakes—when out of adjustment—add no more to your ability to stop than two-wheel brakes. Your car is only as safe as its brakes. Keep them in perfect adjustment.

We have installed a new JUMBO Giant Brake Tester that scientifically tests two or four-wheel brakes. Use our accurate test every 1,000 miles. If adjustments are needed we will make them quickly—at a very reasonable charge.

## Greater Paris Is Making New Housing Plans

By ALICE LANGELIER  
International News Service Staff  
Correspondent

PARIS, March 20.—A greater and more beautiful Paris is on its way to help shelter the 300,000 inadequately-housed persons that are to be found in the city today.

The Loucheur Housing Law provides for the construction of two classes of habitations, cheap rental and moderate rental apartments. Under this law, there will be constructed during this present year 3,600 cheap rental and 4,000 modern rental apartments. In the suburbs, that is in Greater Paris, 3,800 cheap rental and 1,000 moderate rental houses will be started at once. The emplacements for these new buildings will be found by using the old sites of the fortifications; by tearing down condemned or obsolete buildings; by the destruction of the old Vaugirard gas plant and by using some of the little vacant spaces around the city.

And this is not all of the scheme for altering the Ville Lumiere. Some of the old barriers have already gone; others are going. The recently-announced merger of the two underground electric railway systems which will result in the use of the same tickets and a general speeding up of the service, will mean more time for the hurried workers. Several proposed extensions will mean a spreading out into the suburbs and all of this will work for a speeding up of life in the capital and give people more time for their cafe creme in the morning and for their cafe now after lunch. As yet, nobody has agitated the abolition of the side-walk cafe with its cheerful bracers which heats all of outdoors and the chestnut-vendor's big roaster which adds its little bit as well.

There are rumors, however, that the picturesque Paris fire bus is about to give way to a modern machine, closed in, rubber-tired and designed to protect the bright-helmeted French fire boys from inclement weather when they are riding to a big blaze. Not that anyone in Paris ever saw a really very big fire but now and again they are called out to see where a bit of smoke is coming from. Most newcomers think they are little soldier-boys all dressed up with no place to go.

A rare bird, the wild swan, has recently invaded a town in Normandy. One which was killed by a cafe-keeper measured six and one-half feet from tip to tip. It is believed that these birds which now survive only in a few places in the far north, were driven to more southern climes by cold weather.

The birds and beasts were there—and the President of the Republic of France as well, when the annual Farmyard exhibition opened its doors at the Porte de Versailles last week. No sooner had popular pink-faced President Doumergue arrived, than the hens started clucking, the cocks crowing, the dogs barking and the sheep baa-ing. The ducks quacked, the pigeons cooed and the turkeys gobbled. There were loud hisses, cat-calls and chirpings from the bird section and even the lazy rabbits became quite animated and made squeaky little noises to show their delight in spite of the cold weather.

## Postcard Arrives After 21 Years

BUTLER, Pa., March 20.—Twenty-one years ago on July 31, 1908, a postal card was mailed to Mrs. Charlotte Evans, of this city. It was received by her on March 16, 1929. Where the card travelled in the intervening time cannot be explained, but the postmark, "Kronkin," indicates that part of its travels was in foreign lands.

The card was written and mailed to Mrs. Evans by a niece, Mrs. Daisy Stewart, of Mosgrave, Pa., informing Mrs. Evans that Mr. and Mrs. Benjamin Evans, parents of the writer, would visit her. Mr. and Mrs. Benjamin Evans have been dead now for about 15 years.

## Dress Rehearsal Scheduled Today For "Parr" Actors

Carrol Kearns Satisfied That  
"Parr" Is Going To Be Big  
Success Here

Carrol Kearns, producer of "Parr," that snappy, exotic musical comedy to be presented at The Cathedral on Thursday and Friday of this week, said today that the show as rehearsed last night in its entirety was near perfection.

A dress rehearsal is on schedule for tonight. The players are ready and willing to give to the people of New Castle something different in the way of musical comedy productions.

Romantic love scenes, plenty of comedy, catchy songs and clever dancing will keep you spellbound from start to finish of the great little two-act presentation.

There are a few good seats left for Thursday and Friday night.

The wedding march has sounded, the guests have gone, the young husband folds his bride in his arms. They are presently starting out on the journey of life together.

They think their path is to be eternally strewn with roses and love tokens, but in reality many little demons lurk in the very shadow of the bridal palms. Bad temper, selfishness, vanity, untruthfulness growing in difference, a tendency to flirt, which may end in unfaithfulness, even the social standing of the young couple may wreck their happiness.

Only the good angels of love, self-forgetfulness and fair play can rout these evil spirits, making another happy home to form a part of the rock foundation on which to build high ideals.

## Air Mail Pilot Has Lucky Escape

BALTIMORE, March 20.—Dropping flares to see the ground when engine trouble necessitated a forced landing, Verne E. Great, air mail pilot on the Philadelphia-Richmond, Va., route, wrecked his plane in a field of fire at Glenburnie early today. The flames ignited the dry underbrush. Injured he retrieved the mail sack from the wreckage, stamped out the flames near the plane the

best he could and then came to call firemen. Later a motorist took him to Washington with his mail.

## Gets Air Mail Letter Rescued After Crash

Carl Paisley, local merchant, is exhibiting to his friends these days a damaged air mail letter which came near being destroyed when the plane which was carrying it crashed and took fire. The contents, while badly scorched, were readable. The envelope was badly charred.

According to Mr. Paisley, his father had mailed the letter, despatching it via air mail. When the crash occurred the plane caught

on fire and probably destroyed some of the mail. On the face of the Paisley envelope postal officials had stamped "Damaged in Plane Crash, Park City, Utah, March 11, 1929, Dul-ton, P. O. Insp." and then forwarded it.

Evidently the crash occurred at Park City and was taken to the Dul-ton postoffice for inspection. The letter reached New Castle shortly after the date on which the crash was reported to have occurred.

## Ahlquist Missing; Case Is Called For Trial Today

Bond In The Sum Of \$4,000 With  
Agusta Ahlquist, Surety,  
Is Forfeited

When the case of G. S. Ahlquist, charged with abortion, was called for trial at court this morning, Ahlquist failed to put in an appearance. His name was called three times by Prothonotary R. M. Campbell as is the usual custom. He failed to answer. The name of his bondsman, Agusta Ahlquist, was then called and when there was no response the bail was declared forfeited. The bond was in the sum of \$4,000.

Ahlquist was arrested some time ago on information furnished by a young woman who was taken to a local hospital. It was believed for a time that she would die but she finally recovered. District Attorney J. Elmer Bryan secured an indictment before the grand jury and it was expected that the case would come up for trial this week. None of the officials at the court house know what has become of Ahlquist further than that he is missing.

His bond of \$4,000 signed by him and Agusta Ahlquist will be collected by the county.

## Cowgirl Guide Rides The Rugged Rockies

GLACIER PARK, Mont., Mar. 20.—Mrs. Ralph Riehard, better known as "Mrs. Silver" because this is her husband's nickname, is the only registered mounted woman guide in Glacier National park. She is as good a cowboy as her better half, who enjoys a national reputation as a "live mountain lion catcher."

When the cowboys go into the corral mornings to get out their string of horses for the day, "Mrs. Silver" takes her rope from the fork of her saddle, lassoes her horses, ties them to the hitching rail and saddles them. She does not need to lasso "Dusty" her "top horse." He comes at her

## Sore, Tired Feet

Oh! How good it feels to put your tired, aching feet in a "Tiz" bath! You can just feel the pain being drawn out and grateful comfort being restored. "Tiz" draws out the acids and poisons that puff up your feet and make them tender and sore. It takes all the soreness out of corns, calluses and strained muscles and makes your shoes feel a half size larger. Get a box of "Tiz" at any drug or department store and have weeks of foot comfort for a few cents.

## Boy Scout News

### LEADERS SCHOOL

The Lawrence county council Scout training course school is progressing rapidly each Monday evening. In the patrol contests the Rattlesnakes, led by George McCracken and the Owls, the advanced group headed by J. E. Durfee, are tied for first place with 1,070 points. The Eagle patrol follows with 925 points. Wolf, 880; Beaver, 810; Crow, 495.

### HIGHLAND MEETING

Highland troop held an interesting meeting Tuesday evening in the caves of the church with Assistant Scoutmaster George Seyfert presiding. Committeemen S. C. Sproul was present and visitors were William Fehls and William Reynolds.

The following tests were passed: second-class observation, Jack Fix, Elmer Hulme, Nesbitt Blakely, Scott Hubert, Edwin Harper, Reed McCaskey, James Fox and Charles Slack; signaling and compass, Edwin Harper; knife and hatchet, Reed McCaskey; compass, Nesbitt Blakely and Scott Herbert; tenderfoot, Elmer Hulme.

The Mink and Fox patrols led the contests for the evening with 130 points each. Mr. Seyfert gave a talk on "Sharks" and after games were played the meeting was adjourned.

—Scribe, Jack Stevenson.

### CAMP RESERVATIONS

Reservations are being made at Scout headquarters now for those troops that wish to spend some time at camp during Easter week. A troop may have the camp one day and one night, due to the fact that so many are planning to go. Reservations must be made at headquarters.

### SCHOOL SPEAKERS

Dr. B. E. Sankey and Rev. Samuel Maxwell are scheduled to be the speakers at the next meeting of the Boy Scout leaders, which will take place Monday evening at the First Christian church.

### SPRING CAMPOREE

The eliminations for the spring camporee will occur soon and the winning patrol of the county troops will be sent to the state-wide contest. Troops should get their plans for their share in this camporee elimination completed very soon, as the eliminations will occur at an early date.

## Inspect Places Where Eatables Are Handled

Sanitary policemen who also act as inspectors of places where meat, fish, food, ice cream and fruit are sold, made their "rounds" during February, according to city health bureau reports.

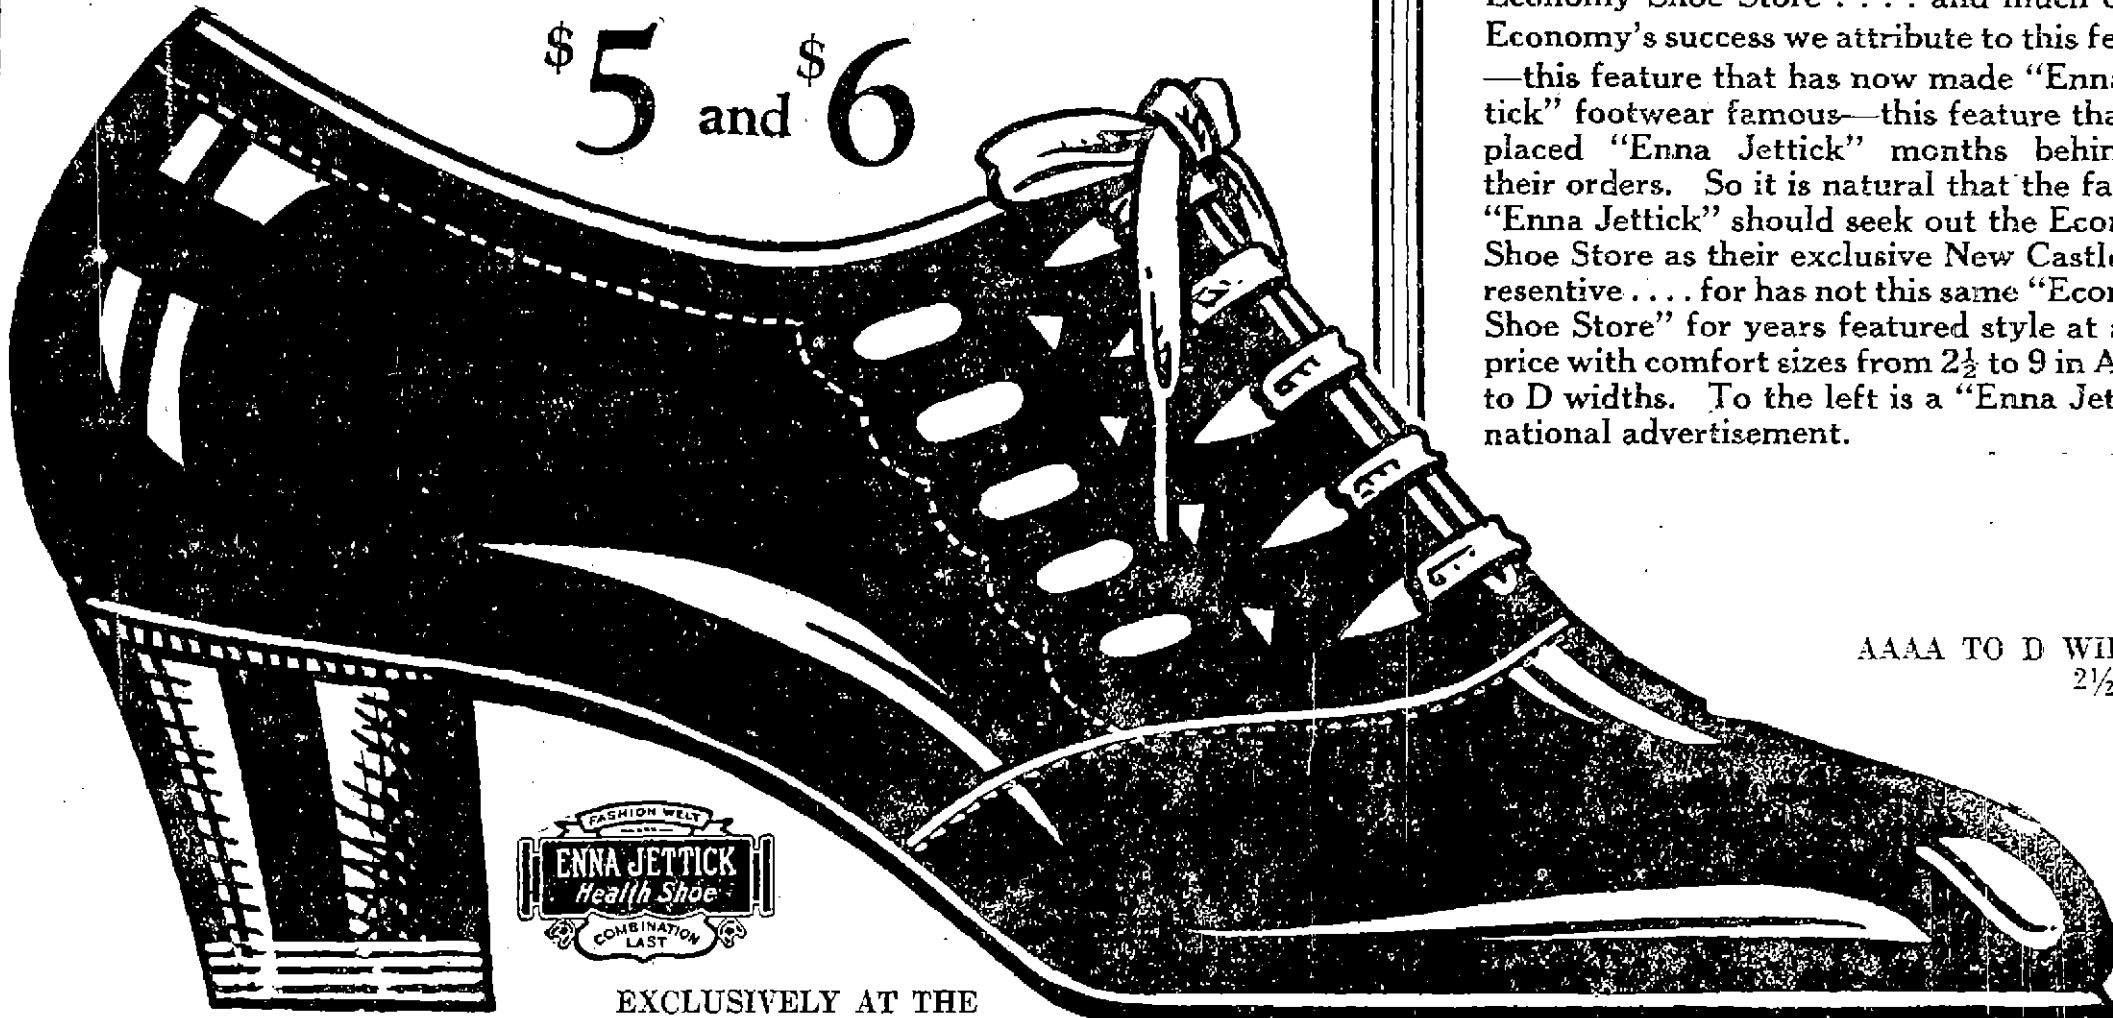

Fifty-seven inspections were made of meat and fish markets, 43 of hotels and restaurants, 25 of ice cream parlors and soda fountains and 37 of confectionery stores and fruit stands.

## Reserve Officers Going To Sharon

Weekly Instruction Meeting  
Here Transferred To  
Mercer County City

Capt. M. L. Craig, in charge of the reserve officers of the local district, announced this morning that the usual Thursday evening meeting here has been transferred to Sharon, at the request of the Mercer county officers. Local officers may attend the meeting and receive credit for instruction although the meeting has been arranged primarily for the benefit of the Mercer county men.

There are nearly 40 reserve officers in Sharon, Farrell, Sharpsville and Greenville, most of whom are inconvenienced in attending all the local meetings. An arrangement is to be worked out whereby meetings will probably be held in a central location in Mercer county for these men.

Capt. Craig, Capt. Fulton Jackson and Lieut. P. J. Dempsey and John Kennedy are planning to attend the Sharon meeting. Any other officers wishing to attend are asked to communicate with Capt. Craig or Lieut. Dempsey by tomorrow afternoon.

Most of us have an idea that we could get rich on an idea.

## About Something In Particular

A Story Wherein An Embryonic B. Franklin  
Does A Stunt With  
His Kite

This is a story of one young boy who called out the service departments of the electric company even though he didn't discover the secret of electricity and so on.

It all happened one day during the past week between Bessemer and Hillsville when a youth was flying his kite in the strong wind with a wire tail attached to the kite.

Now the wire tail on a kite may be funny in itself but when it hits a high voltage wire and at the same time the bottom extremity hits the telephone wires, there is bound to be something doing.

There was something doing. Both the power and telephone companies had to come to the rescue and repair the damage of a complete burn out caused by wire contact between the two lines.

Phone and electric service in the two villages was taboo and the plants in Bessemer were forced to limp on one leg during the tie up.

## Contagion Held Down Last Month

During February there were only 37 cases of contagious illness reported to the city department of health, according to a report to be delivered to city council, Friday, by Health Officer Dr. W. L. Steen. Scarlet fever held high with 22 and mumps was second, there being five cases. Four cases of whooping cough were discovered and the balance of cases consisted of chickenpox, tuberculosis and pneumonia.

## Have Not Selected Temporary Nurse

According to the report of Dr. William L. Steen, to be presented Friday

to city officials, it will state that there has been no nurse service during February as Miss Eleanor Busang was given a leave of absence following an operation.

City council has not decided when a substitute will be named to the position.

## Makes 24 Tests Of Water During Month

Last month Dr. W. L. Steen tested city water 24 times and also examined nine samples taken from various wells and springs.

QUARANTINE 34 HOMES. During February there were 34 homes quarantined. Of the 37 cases reported to the city health department it was necessary to only quarantine the 34 cases which were of a contagious nature. Thirty homes were released from the quarantine ban as

the result of the illness having disappeared during the month.

MAKE 342 INSPECTIONS. Three sanitary policemen last month made 342 sanitary inspections

in the city, according to the city health department's report covering February.

The real balance of trade depends largely on the accuracy of the scales.

## Girls, don't worry about middle age

Lots to recommend  
it, if you keep fit

TELL a sensible woman of 50 that she looks like the older sister rather than the mother of her children, and she just laughs at you.

"I'm middle-aged," she'll declare, "and not trying to hide the fact. Why should I? Middle age has a lot in its favor—that is, if you're well and healthy."

"Sick? Never had a doctor in my life except when my babies came. Never had the habit of dosing myself with pills and medicines, either. I just took Nujol—all the time my babies were coming, and in between times, too. I'll always depend on Nujol."

"Even the healthiest woman is better off by taking Nujol—especially at times when her system is apt to be thrown off balance and her regular functions upset. This pure substance keeps your system functioning normally and naturally even under drastic conditions. It not only prevents an excess of body poisons (we all have them) from forming, but

aids in their removal. It's these poisons that age people prematurely. Make them feel old and tired and useless."

Nujol isn't a medicine or drug. For this reason it can't possibly disagree with you or upset you. It is simply a pure natural product. It works effectively without being drastic.

Start Nujol now. You'll find Nujol at all drugstores. In sealed packages only. Get a bottle today.

## Lindbergh Has Half-Sister, Is Wife Of Editor

Mrs. Eva Lindbergh Christie,  
Wife Of Editor Lives At  
Red Lake Falls, Minn.

### HATES PUBLICITY TYPICAL HOUSEWIFE

RED LAKE FALLS, Minn., March 20.—The secret's out. Col. Charles Lindbergh has a sister.

In this little one-street town of less than 2,000 souls, tucked away not many miles from the imaginary line that separates Minnesota and North Dakota, Mrs. Eva Lindbergh Christie, half-sister of the famous "Lone Eagle," lives happily with her husband, George West Christie, editor of the town's one newspaper, and her two children.

There's not a person living in Red Lake Falls who doesn't know that the comely little wife of the editor of the Red Lake Falls Gazette is a sister of the illustrious colonel.

But outside of this town with its hitching posts, and its weekly paper, few have ever heard of Mrs. Eva Lindbergh Christie. Few have ever known or even suspected that Col. Charles Lindbergh had a sister.

I found Mrs. Christie today in her cozy little cottage.

She wore the proverbial house dress and was busy over a batch of hot rolls.

Hates Publicity.

The two little Christie youngsters were "helping mother." Lillian Lindbergh Christie, 12, was in the immaculate kitchen busying herself with the pots and pans. In the doorway, clinging tightly to a huge slice of home-made bread covered with butter

and sugar was George West Christie, Jr., six.

When the reporter explained her mission Mrs. Christie seemed upset. "I did hope it wouldn't happen," she said. "I've just prayed constantly they'd never find out that Charlie is my brother. You see, I hate publicity and all that sort of thing. And I'd really prefer that you wouldn't even mention it now."

"Why, when Charlie flew across the Atlantic and arrived safely in Paris, there was plenty in all the papers. Even the Gazette here carried the story. But do you know how much space they gave to me in that story? Just one line."

"Down at the bottom of the whole thing, after they had told about everything there was to tell about Charlie and his flight, they just had a line reading, 'Lindbergh is a brother of Mrs. Eva Lindbergh Christie of Red Lake Falls, Minn.'"

### Correction Made In Tournament Rules

Error Unnoticed When List Of  
Rules Governing Marble  
Meet Was Drafted

In the list of rules for the coming city-wide marble tournament to be sponsored by the Hi-Y club of the Ben Franklin junior high school, it was announced that any boy or girl receiving more than two D's on his or her last grade report would be automatically eliminated from competing. This, however, was in error.

As announced by the marble tournament manager today this section of the rules should have read: "Any boy or girl receiving more than two D's on his or her grade report for the six-week period ending April 26 is automatically eliminated from competing in the tournament."

## Secure Members For Town Booster Club

High School Literary Society  
Elects Officers; Other  
News Of Town

(Special To The News)  
NEW WILMINGTON, March 20.—Yesterday marked the first day of solicitation of members by the newly-created New Wilmington Boosters club after that organization held a meeting in the town hall Monday evening.

Twenty-five citizens were present at the Monday meeting and instructions concerning the methods and plan of soliciting new members were given out by temporary committees. These committees were formed out of the temporary embryonic organization which will disappear when enough members have been enlisted to make the real Boosters club official.

The solicitors were active yesterday and will continue to enlist members the remainder of the week.

At a recent meeting of the Sophomore Literary society of the local high school Ruth Adams was selected for president and Maxine Pitzer was elected secretary. The name of the society was also selected at this meeting, the name committee having been composed of Gertrude Minner, Irene Scheier and Paul Greer.

At the meeting of the Women's Missionary society of the local Presbyterian church which was held at the church this afternoon, Mrs. William Phillips had charge of the devotions.

Others who took part in the program of the meeting were Mrs. Lydia Buckwalter, Miss Mary Eckert, Mrs. J. L. Brown and Mrs. William Pitzer.

Arthur Kirkbride of Erie visited his parents, Dr. and Mrs. S. A. Kirkbride, here yesterday.

## Departments Join In Clean-up Week

HARRISBURG, March 20.—Plans have been completed by the Departments of Health, Welfare, Forests and Waters and Bureau of Fire Protection, State, for the issuance of the annual bulletin on Clean-up Week, which this year will be observed beginning April 14.

Instructions by the respective departments in combined form will be mailed to all fire wardens, game protectors, health officers, county medical directors and mayors and burgesses.

## Coal Production Declines In Year

HARRISBURG, March 20.—Production of both anthracite and bituminous coal continued to decline during 1928, according to final compilations, announced by Walter H. Glasgow, secretary of mines.

The anthracite production was 74,552,312 net tons as compared with 79,367,154 in 1927.

The 1928 bituminous production was 129,846,603 net tons as against 131,644,922 in the previous year.

## HELP KIDNEYS BY DRINKING MORE WATER

Take Salts to Flush Kidneys and  
Help Neutralize Irritating  
Acids

Kidney and bladder irritations often result from acidity, says a noted authority. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, stinging sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it. Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Begin drinking lots of soft water, also get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acids in the system so they no longer are a source of irritation to the bladder and urinary organs, which then act normal again.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by acid irritation. Jad Salts causes no bad effects whatever.

Here you have a pleasant, effective, lithia-water drink which may quickly relieve your bladder irritation.

## Thirty Nine Residents Of New Wilmington Are College Alumni

NEW WILMINGTON, March 20.—According to a recent survey made in the college town 39 residents of New Wilmington are alumni of Westminister. Eleven of these alumni are still connected with the college but the rest are citizens of the town having no official connection with their alma mater.

Among the alumni still connected with the college are Dr. R. J. Love, Miss Elizabeth Stewart, Miss Corinne Mercer, Mr. and Mrs. J. D. Lawther, Mrs. C. B. Robertson, Mrs. J. K. Edmunds, Miss Ida M. Hanna, Miss Dorothy Kirkbride, and Mr. and Mrs. A. A. McDonald.

The medical profession in the college town is also representative of the college by the fact that Dr. H. E. Barr and Dr. and Mrs. Hugh Hart are graduates of Westminister. Dr. S. E. Calhoun, dentist, is also an alumnus, and Dr. Elizabeth McLaughry is widely known as the director of the Overlook Sanitarium.

Two New Castle high school teachers who commute from New Wil-

mington and who are Westminister graduates are Miss Emily Johnson and Miss Elliott. Miss Mae McKelvey, Miss Evelyn Winger, and Miss Mary Thorpe are local Westminister high school teachers.

Alumnus T. R. Jones is vice-president of the local First National Bank and Alumnus H. T. Getty is cashier while Alumnus Elizabeth McBane and Inez Hope are employees. W. W. Campbell, head of the Campbell lumber company is a Westminister graduate and Dan McQuiston and Jim McLaughry, owner of the local Quality Tool Corp., are also graduates.

Attorney and Mrs. W. E. McEwee, Eugene Sampson, Rankin S. Johnson, Mrs. Charles Adams, Mrs. Elsie Jaxtheimer Wible, Mrs. J. A. Swindler, Harry V. Kuhn, Mrs. Janette Schaffer and Miss Irene Thompson all claim Westminister as their alma mater.

And probably heading all others is Rev. Daniel M. Thorne '64 who is the oldest resident of the college town and possibly the oldest alumnus of the college.

## Statute Of Pharaoh In Wig Reported Found By Austrians

VIENNA, March 20.—The Austrian archaeological expedition to Lower Egypt reports that it has found near Luxor the grave of a sixth dynasty ruler who wore a wig. At least a statue of the old Pharaoh, who bore the name of Scheschemnefer, shows him adorned with false hair, something previously unknown among Egyptians of that period.

The figure was one of four which, in pairs, flanked the massive sarcophagus. Near each statue, the archaeologists report, there were three obelisks.

The scientists have reported that they found a whole line of graves of the period of the Mycerinus Pharaohs, who ruled the land of the Nile for 600 years.

## Legion Men Will Go To Aliquippa

A large delegation of legionnaires from the Perry S. Gaston Post, American Legion, are planning to go to Aliquippa on April 2nd, where they will attend the annual banquet of the Beaver County Legionnaires.

The trip will be made to return the compliment of February 12, when Aliquippa sent the largest delegation to the National Commander's banquet of the Gaston post.

Pat Dempsey is making arrangements to send a large delegation to the Aliquippa affair.

## INSTEAD of exercise

Don't suffer the consequences of persistent lack of exercise. Learn the simple secret of the exerciser in the vest-pocket box for a dime! Millions know it!

Cascarets make bilious, headachy, constipated people feel wonderful. Their effect is not only quick, but it's lasting. They give the bowels as much real exercise as they get from an hour in the saddle.

Oils, salts and ordinary laxatives do not act like Cascarets. These things produce only mechanical or chemical action. They actually weaken the bowels. You have to keep dosing with them.

Each time you use Cascarets, your bowels become stronger. They are made from Cascara Sagrada, which stimulates the natural peristaltic action of the bowel muscles. Nothing else does this. That accounts for the popularity of Cascarets and their tremendous sales of over 20 million packages a year!

CHRYSLER MOTORS PRODUCT

## All talk of Plymouth revolves on Quality

FULL SIZE

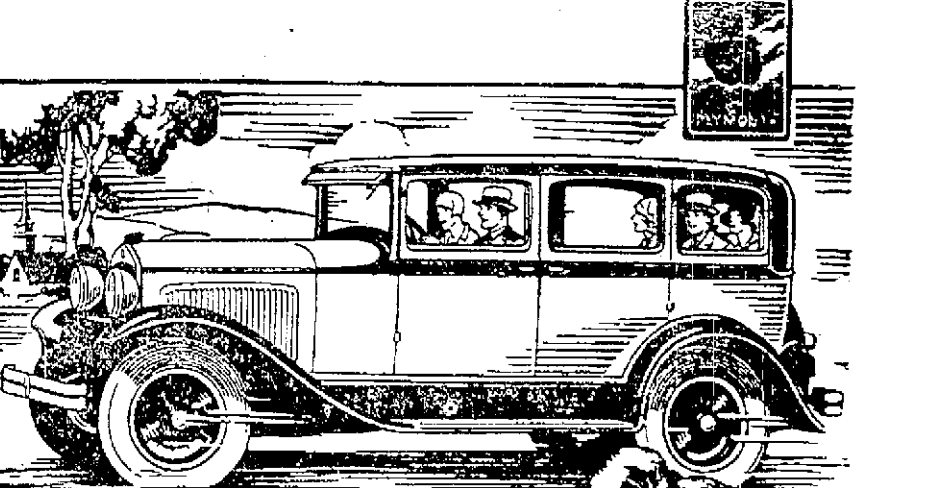

ONE of the fine things about owning a FULL-SIZE Plymouth is having a car that does not invariably suggest a price tag to all your friends.

Plymouth can match price with other cars in the lowest-priced field, but there all similarity ends—for other cars priced around it cannot begin to match Plymouth's size, quality, beauty and power. And in these the full-size Plymouth enjoys a unique distinction.

You think instantly of style when you see a Plymouth glide by—replete as it is with smart touches of Chrysler designing.

Thoughts of comfort are inevitable as you contrast Plymouth's full-size roominess with the cramped quarters of miniature cars.

Product of Chrysler engineering and craftsmanship, the Plymouth has been so named because its endurance and strength, ruggedness and freedom from limitations so accurately typify that Pilgrim band who were among the first American Colonists.

THE FULL-SIZE SEDAN—\$695 AT THE FACTORY

You feel a genuine thrill at the wheel when you discover the power and smoothness of Plymouth's big high-compression engine which utilizes the efficient Chrysler "Silver-Dome" principle.

You enjoy a wonderful sense of safety from the full-size Chrysler weatherproof internal-expanding four-wheel hydraulic brakes.

Summing it all up, the full-size Plymouth brings you real fine-car advantages with utmost economy in first cost and remarkable savings

# McLarin Resembles Old Time Fighters

Coast Slugger Who Will Battle Ray Miller Lives In Abject Poverty

McLarin Loves To Fight And Gives No Thoughts Towards Any Big Sums Of Money

By DAVIS J. WALSH  
Sports Editor International News Service  
NEW YORK, March 20. Thirty blocks further downtown, the mugs fought at the ticket booths for the privilege of making Jimmy McLarin a richer man than ever he will need to be. He is well on his way toward the million he couldn't spend with the help of the marine corps but you wouldn't think he had a nickel for car fare if you saw Jimmy McLarin today as he sat, unconscious of the iniquity of surroundings that included threadbare carpet and horse hair furniture, and intimated very earnestly that he wouldn't change places with a prince of the blood. Maybe nobody else would, either. If they were due to cut \$80,000 three ways with Ray Miller and the Garden corporation on Friday night. But McLarin intimates that money doesn't rate six, two and even with contentment and, somehow, he makes you believe him. Just plain folks, this fellow.

Resembles Old Timers  
He is, in fact, all that is left of the old timer who fought because fighting was his life and so he sat in his dingy suite at the "family" hotel he finds suitable to his needs and talked of fighting with the enthusiasm of one who discusses his life work. An austere spring jutted out from the borsheir and stabbed him in the back.

He ignored it and went on to say that he knew of nothing else that would please him more than fighting, unless it was aviation. No money in that, you counter, and he comes right back with the crack, what of it? Fighting is the thing he wants to do, he tells you, so he fights. If it were flying he would fly. The radiator suddenly rendered snatches from the anvil chorus.

McLarin didn't give it a glance as he declared his belief that Miller had an even chance to "take" Mandell if the pair met for the lightweight title; that Loughran might have too many gloves for Walker in the Chicago fight for the light heavyweight championship on March 29; that he, personally, had never seen the welterweight champion, Joe Dundee, and didn't care if he never did, unless he saw Joseph in the opposite corner; and that he thought Paulino was the best of the heavyweights.

Really Has Money  
Just my opinion," he said, deprecatingly. The unadorned incandescents were snapped on to lighten the gloom of the place. The old fashioned mantelpiece had seen better days, you noted.

McLarin noted nothing. A lot of things needed a lot of things while he was growing up and he got so that he worried along without them. This apparently has become second nature to him. Too late to change now. I doubt whether he wishes to. Money or no money, his tastes have remained simple and his wants few. Just a throw back to the old school, except that he has much money and they mostly had none. In the distance, one heard an asthmatic elevator laboring its way aloft. ## Wolcast To Battle Frisco Grande Here

State Flyweight Champion And Filipino Who Floored Willie Davies And Put Up Sensational Scrap Coming Here Next Monday Night To Box 10 Rounds; Wolcast Was Willing To Fight Davies At 112 Pounds; Davies May Be Here To Challenge Wolcast; If This Occurs Effort Will Be Made To Match Bitter Rivals.

By ED. FRITZ

Midget Wolcast, flyweight champion of Pennsylvania and the colorful Filipino, Frisco Grande who fought and floored Willie Davies here two weeks ago Monday night will furnish a classy grand finale to the pugilistic whirling to be presented at Jolly bowl next Monday night.

While promoters in various cities argued to and fro as to which club would stage the spectacle, and an extravaganza worth any man's coin, Promoter Bill Jolly had their signed contracts tucked away in the bowl safe. According to the terms, Wolcast and Grande will box at 114 pounds at three o'clock.

Wolcast boxed at Centennial Field last fall but his opposition was nil and in order to give the small crowd a run for its money he gave his Goldberg foe a boxing lesson. He will find Grande a different sort of fighter and we earnestly believe it will be one of the fastest battles ever staged here.

Everybody Knows Wolcast

There is no need to tell much about Wolcast. Every fan knows of his ability. He is the recognized flyweight king of Pennsylvania and has taken three out of four fights from Davies, who in the writer's opinion is a great flyweight. Grande gave Davies all he could handle here two weeks ago.

Grande's chief second, Ben Irvine, before the fight told the fans that Grande had a bad cold and on the day of the fight he had to send the little Filipino into a workout to remove a pound of flesh. This removal coupled to a changing of his style while the fight was under way no doubt mitigated against the brown Filipino.

Yesterday James Buchanan, manager of Davies announced that Willie and the Filipino would box at Hampton, Ont., Monday night. We told him that the contracts had been received here. He later said that as Manager of Davies he would claim the state championship as "Wolcast had run out of the match with Davies here."

Buchanan is not wholly correct. Had he accepted the weight at 112 pounds when Jimmy Kelly accepted the bout of Wolcast, the bout could have been made as Kelly told the writer "go ahead at 112." After losing a day we discovered that Davies' manager wanted 114, and Wolcast wouldn't agree to this.

Can Draw Comparison Fans who wish to draw a comparison on Wolcast and Davies now have a chance. Davies fought Grande and Wolcast will fight him Monday. If Davies is sincere about meeting Wolcast he should be present Monday and if the managers agree to terms and fix their weight differences, the bout is willing to stage the match.

George Rohanna, Cleveland and Johnny Hahn, Oil City, welterweights, both new boys in this vicinity will box in the semi-final. They will step six rounds at 148 pounds. Hahn has been cutting a wide swath around Oil City and Rohanna has been out-

## Mush Ball League Being Discussed

Several Teams Can Be Formed At Once; Backers Of League Assent

Local baseball enthusiasts who have found the national game as played according to big league rules too fast and strenuous are discussing the formation of a mush ball league here this spring.

Mush ball is a game much akin to the hard ball game, excepting that a larger and softer ball, and smaller bats are used. The diamond is also much smaller, first base being but two steps away for a lone leagued fellow. However, it is a fascinating game and productive of much enjoyment.

A number of surrounding cities have mush ball leagues, the game being in great favor in Franklin and Sharon. Last summer, three leagues played mush ball in Sharon, while Franklin has been playing the game for the past ten years.

"Mud" Dart local fireman is deeply interested as are several other old time players here.

A meeting will probably be called in the near future to discuss formation of such a league, which would include the police, firemen, printers, bankers, business men and others.

## Tudor Lewis Is On Every Team

All Sport Writers Select Lewis On All Star Conference Team

NEW WILMINGTON, Pa., March 20.—Sports writers in Pittsburgh, New Castle and Meadville have all selected one, two, three or four of Coach John Lawther's Westminster Titans on their all-star teams during the last two weeks. A check-up on the teams selected by Jess Carver, Pittsburgh Sun-Telegraph; Max Hannum, Pittsburgh Press; "Bugs" Walther, Associated Press; "Bugs" Walther, New Castle News; and C. W. "Johnny" Johnson, Meadville Republican. It is found that every player on Lawther's team received mention.

Coupling five points for first-team selections, three for second team and one for honorable mention, Tudor Lewis has 40 points, having been placed on eight all-star teams by sports writers. This includes four conference teams and four district teams. O'Donovan, captain-elect for the 1930 season is second with 25 points, having been selected on seven all-star teams. O'Donovan won three first team berths, three second-team berths and one honorable mention. "Skate" Delahunty is third with 19 points, having been selected on six teams. His total is the result of being selected on one first team, four second teams and being given honorable mention once.

"Red" Crowell lanky center receives seven points having been placed on two second teams and having been given honorable mention once. Phil Rice is next with six points, the result of two second team selections. Kochman and Ciesynski each have one point honorable mention on one team.

## Slippery Rock Hi-Y Wins Over Franklin Hi-Y Club, 19 To 18

In an interesting game played at the Ben Franklin Junior high floor on Tuesday afternoon the senior Hi-Y club of Slippery Rock defeated the boys of the Ben Franklin Junior Hi-Y club by the score of 19-18.

The summary follows: Ben Franklin 18 Slippery Rock 19. Ross, Wallace, P., McCormick, Wutamen, G., Moore, Pagnato, C., Strub, G.

Field goals—Ross, Wallace 2, Wutamen 4, Dennis, Adams 3, McCormick, Strub, Gibson 3.

Fouls—Ben Franklin 2 out of 4, Slippery Rock 3 out of 11.

Subs—Gibson for McCormick, Davidson for Moore and McDonald for Grine.

Correct this sentence: "The clock in the work room," said the foreman, "had been stopped three days before anybody noticed it."

## Football, Basketball And Track Schedules Out At Westminster

(Special To The News) NEW WILMINGTON, Pa., March 20.—Varsity schedules for football, basketball and track teams were released yesterday afternoon by the faculty committee on athletics at Westminster. The committee passed on the schedules as drawn up by Graduate Manager A. A. McDonald and announced them at the gymnasium office yesterday at 4:30.

Seven games are listed on the 1929 football schedule. The United Presbyterian open the season against Fordham University in New York City September 28. Allegheny will be met at Meadville Oct. 5. Grove City will be met at New Wilmington in the homecoming day game, Saturday, October 19. On October 26, the United Presbyterians journey to Greenville where Thiel will be met. Bethany will be the home attraction November 2. November 9 will be permanently open. Duquesne will furnish the home attraction November 16. The season will close against Geneva at Beaver Falls November 23.

Court Schedule Coach John Lawther's Westminster passers will play 15 district games next season. Two games will be played with every team met this year with the exception of Carnegie Tech. The Plaid will be met but once, in Pittsburgh. The schedule follows: January 4, Grove City at Grove City; Jan. 10, Thiel at New Wilmington; Jan. 13, Geneva at New Wilmington; Jan. 17, Duquesne at Pittsburgh;

Jan. 25, Bethany at Bethany, W. Va.; Jan. 28, Carnegie Tech at Pittsburgh; Feb. 1, Thiel at Greenville; Feb. 3, Bethany at New Wilmington; Feb. 7, Geneva at Beaver Falls; Feb. 11, Allegheny at New Wilmington; Feb. 15, Wash-Jeff at Washington; Feb. 18, Allegheny at New Wilmington; Feb. 22, Wash-Jeff at New Wilmington; Feb. 25, Duquesne at New Wilmington; Feb. 28, Grove City at New Wilmington.

The game with Washington and Jefferson here on February 22, will be a feature of Washington's Birthday and of the annual Mother's Day celebration on the campus. Opening and closing the season with Westminster's traditional rival, Grove City, is also an interesting feature of the 1930 card.

Spring Track Card Five meets have been scheduled for the varsity track team this spring. The season will open with a dual meet against Grove City at New Wilmington, Saturday, May 4. Allegheny will be met at Meadville Saturday, May 11. Geneva will be met in a dual meet at Beaver Falls, Wednesday, May 22. Two days later, May 24, Carnegie Tech will be met at Pittsburgh. The tri-state conference meet will, as usual, be held Thursday, May 30 at Beaver Falls.

A meet with Thiel is pending. If it can be worked in May 18 or earlier, it is possible that the Lutherans may be met in a dual meet.

## Inter-Class Teams In Basketball Tourney

The high school inter-class basketball tournament held on Tuesday afternoon at the school gym under Physical Director William L. Klee found Team 2 of Period 8 defeating the team 7 of period 5 in the final game by a count of 12-0.

Ten other winners were as follows: Team 7 of period 5 defeated team 4 of period 8 8-0; team 2 of period 8 trimmed team 12 of period 4 11-2; team 12 of period 4 trounced team 9 of period three 6-3 in an extra period of play; team 7, period five won on a forfeit from team 7 of period 6 and team 2 of period 8 defeated team 10 of period seven 10-0.

The games were all fast and hard fought. The games were handled in a pleasing manner by William Klee.

The summary for all the games follows:

## Castles To End Floor Season Here Tonight

Castle Girls, one of the best basketball teams among girls in western Pennsylvania and eastern Ohio cities and have carved a name for their team in the different places where they have played. Warren generally has furnished their strongest opposition and tonight fans should see a real game.

There will be a preliminary between the Scholastics of New Wilmington and the Lincolns of New Castle. The play will start at eight o'clock.

## Sharon High Wins From Homestead In Game At Stadium

Sharon High Wins Western Pennsylvania Title By 24 To 19 Victory At Pittsburgh

PITTSBURGH, March 20.—The great tide of Yellow Jackets from Sharon, Pa., swarmed over the Pitt stadium last night and also swarmed over a very highly touted Homestead High basketball team. The Sharon boys defeated Homestead in the playoff for the championship of western Pennsylvania.

About 4,500 fans jammed their way into the spacious Pitt stadium floor to witness the battle. Homestead, due to their great showing in the W. P. L. A. L. tourney, were the ranking favorites. Soon after the game got under way the Homestead stock was selling off from five to six points. The score at half time favored the Sharon boys, 15-14.

It was Donny McCamant, the little Sharon High forward, that stole the play from Paul Birch of Homestead as the outstanding player. Birch, until last night, was without a peer in scholastic basketball, but the youth from the steel center was head and shoulders above Birch.

The third quarter found Sharon with a lead of 23 to 18. Both teams talked but one point the final quarter, so close was the defense worked.

The summary: Sharon 24 Homestead 19. Deems ..... F. Delay ..... F. McCamant ..... F. Johnston ..... F. Murphy ..... F. Oates ..... F. Laycock ..... G. Birch ..... G. Mitchell ..... G. Sertich ..... G.

Score by periods: Sharon ..... 11 15 23 24 Homestead ..... 6 14 18 19. Substitutions—Bair for Delay; Kainpoun for Bair; Crompton for Mitchell.

Field goals—McCamant 3, Murphy 2, Laycock 2, Deems, Johnston 2, Birch 2, Oates. Fouls—Sharon, 8 out of 16; Homestead, 9 out of 18. Referee—Herklitz, McKeesport. Umpire—Pitting, Erie.

## Baseball Puzzlers

By CHARLEY BARRETT (Big League Scout Writing for Central Press News)

Occasionally a situation will arise during a game that at the time appears very confusing although if analyzed resolves itself into a simple matter.

To explain, I remember an amusing episode of last summer when I was touring the bushes via automobile. You know the art of scouting has changed in the past few seasons and now I rarely use the train.

I stopped at a small town in Kentucky, near Paducah. I wasn't interested in anyone but watched a couple of town teams in a game that was interesting on account of the local color.

There were runners on third and second with one out when the batter drove a long fly that appeared headed for the left field fence. Naturally the runner on third, who had a big lead, trotted in to the plate and the man on second got under full speed.

But the ball was held back by the wind and suddenly it dawned on the runner who had scored that the left fielder probably would make the catch. So he darted back toward third, forcing the other base runner back to second.

The ball fell safely, so the runner on third again started for the plate, but stumbled after a few steps. Before he could recover the outfielder threw to the plate and he was tagged by the catcher as he came sliding in.

A laughable situation, of course. Here was a man who had already crossed the plate on one attempt, called out for making his second try. The home boys went round and round on that decision. The umpire was confused but finally permitted the run to count.

I think he never did know the answer, but thought it was safer to favor the home team on the argument. Maybe he was wise at that.

## Twelve Are Awarded Basketball Letters

(Special To The News) NEW WILMINGTON, Pa., March 20.—Ten players and two student managers on Coach John Lawther's great Westminster College court team were awarded varsity letters by the faculty committee on athletics according to an announcement made in chapel yesterday morning.

Those who were thus honored are: Acting Captain Tudor Lewis, Farrell; Captain-elect Glenn O'Donovan, Pittsburgh; Kenneth Delahunty, Indiana; Phillip Rice, Duquesne; William Crowell, Sharon; Michael Kocheran, Duquesne; Harry Brownlee, Lock Haven; Marshall Fisher, Boardman, O.; Ben Ciesynski, Duquesne; and William Lewis, Turtle Creek. Student Managers, Luther Braham, Butler, and Emmanuel Krueger, Union City, N. J., were also given varsity awards.

Wilson Borsford, Pittsburgh, a member of the junior class, was appointed student manager of the 1930 varsity court team by the faculty committee.

Charles Ayers, a member of the team for four years, was voted a Westminster varsity blazer in recognition of his service to the college. Only senior members of varsity squads are awarded blazers. Tudor Lewis and William Lewis, two last-year men, were also voted blazer awards.

Invitations to the banquet were mailed yesterday from the college office. It is thought that approximately 40 will be in attendance. In addition to Coach John Lawther, members of the squad, managers and faculty and alumni representatives a number of representatives of the daily press from New Castle and Sharon have been invited. Dr. W. Charles Wallace will preside.

## Titans Will Be Banquet Guests Monday Night

NEW WILMINGTON, Pa., March 20.—Dr. Charles Wallace, president of Westminster college, will be host to the varsity basketball team, faculty committee on athletics, athletic council and managers at the annual banquet in honor of the team next Monday March 25 at Hotel Neshannock, New Wilmington.

In addition to the banquet, were mailed yesterday from the college office. It is thought that approximately 40 will be in attendance. ## Chicago Cubs Appear Strong Contenders In National League Race

Manager McCarthy Satisfied That Cubs Will Be In Thick Of Pennant Battle

Much Depends On Pitching Staff; Hornsby Is Improved Player This Season

By HARRY NEILY  
International News Service Special Correspondent

LOS ANGELES, Calif., March 20.—Nothing short of the National League championship will satisfy Cub officials this season. When two or more shareholders are gathered together they lift the voice in praise of the prospects of Manager Joe McCarthy's troupe. The idea seems to prevail all the Cubs have to do is step out and shake the pennant bush and nature will provide.

Much of this is based upon the acquisition of Rogers Hornsby. His prowess does not call for comment. He has fit into the Cub plan of things smoothly. There has been no visible display of the mental attitude said to have made him undesirable in St. Louis and New York.

Aside from Hornsby, Cubs prospects hinge upon the pitchers. If Mike Cuyler, the most traveled left hander in baseball, finally has "arrived" the Cubs' chances of getting into the autumn classic are improved. Some energetic young men bear-

ing large minor league batting averages are on hand, but one can pick the starting lineup now and as follows:

**Lineup Unchanged.**  
English, short stop; Beck, third base; Cuyler, right field; Hornsby, second base; Wilson, center field; Stephenson, left field; Grimm, first base; Hartnett or Gonzales, catcher; the pitcher.

A discussion of the Cubs by position reveals:  
**Pitchers**—Root, had tonsils removed, fifteen pounds lighter than last year, when he was not a winner. Carlson, recovered of attack of flu which made him ineffective last season. Blake, going along as usually, the class of the staff. Malone, won 18 games in 1928, leading the hurlers. Bush, same as heretofore, used chiefly for relief, but compiled 15 wins last year. Probably has improved. Art Nehf, veteran with 13 and 7 last year, seems strong as ever, is in shape but can't go on forever. Mike Cuyler, back from Wichita Falls, Texas, totalling 21 and 8 in Texas League. Plenty of experience and may be due now. Ed Lautenbacher, a long man from Reading, winning ten and losing five there, but green in spots.

**Catchers**—Hartnett, class of the league, with a sore arm. Had it last year and recovered. Mike Gonzales, over 40 years old, the most active man in the party. Tom Angley, squat person of pounce who started at Georgia Tech as guard, batted 333 for Atlanta. Robert Grace, hit .336 in Little Rock, likely to be third string backup and "Captain of the Bull pen."

**First Base**—Charlie Grimm alone.

Stephenson, an outfielder, has been coached as substitute.  
**Second Base**—Rogers Hornsby. Short—Woody English, fastest young man in the big leagues. One point shy of 300 last season. Norman McMillan, sub infielder, who bats in streaks.  
**Third Base**—Clyde Beck, brisk fielder, weak batter. Experience gives him the call. Clarence Blair, hits ball hard, but is pea-green in certain phases of third basing.  
**Outfield**—Stephenson left, Wilson center, Cuyler right. They performed regularly last year. Cliff Heathcote, batting left handed, likely substitute. There are the Cubs—briefly.

## Kaps Are Winners In College League

Defeat Delts In Fraternity League At Westminster College

(Special To The News)  
NEW WILMINGTON, Pa., March 20.—Kappa Phi Lambda fraternity won its first intra-mural basketball championship at Westminster in five years when the Kaps downed the top-heavy favorite, Delta Phi Sigma in the play-off game of the series. The Kaps won out by a 14-13 score in the best game of the entire series.

Both teams had won four and lost one during the regular schedule and the play-off game was nip and tuck throughout. The Dormitory league teams, playing for the freshman championship, have a few more games to play. The winner of this league will meet the Kaps for the championship of the college in a game the latter part of this week.

## Gersons Win In Closing Game

Gerson Jewelers Throw Jewish League At Youngstown Into Deadlock By 26-25 Win

The Gerson Jewelers of New Castle, threw the Jewish league at Youngstown, Ohio, into a turmoil, and deadlock, on Tuesday night at the Rayon High school floor, by nosing out the last B. M. D. club 26 to 25. The game was a thriller from start to finish, with the locals always in the lead.

The battle last night was perhaps one of the most interesting and exciting of the present season, and kept a fairly large crowd of spectators sitting on edge the entire time. As a result of their defeat the B. M. D. club is now tied with the Marshals for the title in the second half of the season.

**Game Hard Fought**  
The game was nip and tuck the entire way with the Gersons nearly always in the lead. In the closing seconds of the game the B. M. D. players tried hard to overcome the lead of the New Castle boys but failed in their attempt. The score at the end of the first half favored the Gersons 14 to 9. J. Solomon, E. Solomon, H. Levine, and Rogovin tallied for the Gersons in the first half. The B. M. D. club had but two field goals the first half.

E. Solomon and Rogovin carried the Gersons through to victory in the second half by a rally that netted five baskets. Knable was the big scorer for the B. M. D. club.

**Captain Dave Rogovin**, "Eph" Solomon and J. Solomon played the best basketball of the year for the Gersons, with Knable the best bet for the losers. The work of Referee "Bub" Jones of New Castle was highly satisfactory. It was the final game of the year for the Gerson Jewelers.

**The summary:**  
Gerson Jewelers 26, B. M. D. Club 25.  
Rogovin 5, F. D. Owenstein 4, E. Solomon 3, Knable 3, J. Levin 2, C. J. Laskin 1, J. Solomon 1, G. H. Laskin 1, Zieve 1, H. Levine 1, Davis 1, Baron 1, N. Owenstein 1, Field goals—Rogovin 3, H. Levine 2, E. Solomon 4, J. Solomon 2, D. Owenstein 1, Baron 1, Knable 5, Fox, N. Owenstein, Fouls—Gersons 6 out of 9, B. M. D. club 7 out of 15. Referee—Charles "Bub" Jones, (Lincolns).

## What Of The White Sox?

By QUIN HALL

Because of the glamour surrounding Bill Cissell's Cubs and their chances in this year's National League race some Chicago fans are overlooking Charley Comiskey's White Sox on the south side of the Windy city.

True the Old Roman's team doesn't look to be much stronger than last year on paper. Russell Blackburn, who took over the managerial duties in mid season last year is assured of his berth. He had considerable to do with pulling the Pale Hose into position where they led the second division at the close of 1928. This Blackburn is a hustler and the boys on the club played fast ball to back him up when he followed Ray Schalk in the pilot house. They're likely to play pretty snappily this coming season too.

While general conversation is centered around the Cubs and their chances and while Comiskey himself is out with a prediction that the North Siders will win in the older circuit, the Old Roman still has hopes that his club has an outside chance to lead in the American league. And out of turn when he intimates that the World Series may be played exclusively in Chicago's backyard.

The Old Roman still dreams of seeing another pennant wave over his park. Charley is 69 years old. His first world pennant was won in 1885. In 1906 the Sox beat the Cubs in the fall classic. In 1917 they took the title from the Giants. The Old Roman thinks it's time for another one. Looking over the White Sox we find that they have quite a few assets. Blackburn is a live-wire pilot. He proved that in his trial last year. They have a fairly dependable gang of flingers. They have speed and a great deal of fielding ability and sufficient

talent back of the plate. A team with those qualities cannot be entirely ignored.

On the pitching staff Ted Lyons might well be rated as one of Blackburn's best bets. He pitches consistently good ball month in and month out and he is pretty ably assisted by such twirlers as Al Thomas, Ted Blankenship and Grady Adkins. Young Ed Walsh broke in last season and exhibited great promise. He'll undoubtedly prove much more efficient during his second season in last company. Old Master Ed has probably taught his son additional tricks during the winter months. Red Faber should also furnish the Sox extra pitching strength with his spitball.

Bill Cissell the high priced shortstop who was purchased from the Portland club in the Pacific coast league and played his first ball with the Sox last year may prove to be worth the price paid for him this year. Comiskey parted with a reported \$123,000 to get Cissell and Bill didn't look to be worth that amount during 1928. If he can strike his regular stride this year Cissell will help Blackburn win a lot of ball games.

During the off season Comiskey purchased Outfielder Clarence Hoffman from the Sacramento club of the Pacific Coast league for \$30,000. Hoffman is rated as a heavy hitter and may prove a big help to the White Sox. Blackburn can use some 300 hitters.

The White Sox have what might be called a very youthful team and you can never tell about youngsters. May be this is the year for the Chicago club. Many fans are again giving the pennant to the Yankees but the New York club will have plenty of fighting to do before the title is clear and the Pale Hose may cause plenty of upsets.

## Bowling Columns

Plan Meet Here

A big affair is promised to the bowlers of Western Pennsylvania and Eastern Ohio in the doubles and singles tournament that is planned for the week of April 15-20. This will be the first open ten-pin event in New Castle since the time that Skinner and Gould held their tournament on the south side years ago. Already the entries are pouring in and the prize list will be decidedly large.

It is something that has long been needed for the bowlers that do not have the time to attend the A. B. C. tournament each year.

**New Castle Wins**  
E. & A. division of New Castle defeated the E. & A. division of Youngstown, won up for the Central regions eliminations at Cleveland. In ten pin matches at Solomon's, New Castle won by 11 pins. Davis was high with 231. Summary:

## Gospel Message At City Mission

Rev. Floyd A. Childs will speak this evening at the City Rescue Mission, 17 South Mercer street. His subject this evening is "Satin and His Gospel". Rev. Childs will have a helpful message for those who attend. Special music will also be rendered this evening at the service.

A large crowd was present last evening to hear Mr. Childs discourse on "The Jew in God's Plan". Mr. Childs is a very forceful teacher and his teaching is much enjoyed by those who attend.

Mr. Childs will teach every evening this week at the Mission. His subject for the week are as follows: tonight "Satin and His Gospel"; Thursday evening, "The Distress of Nations"; Friday evening, "Book of Revelation"; Saturday evening, "Book of Revelation, Continued"; Sunday evening, "The Great White Throne".

These services which begin at 7:30 each evening have been well attended and everyone is welcomed to attend and enjoy the messages.

## Keeping Close Check On Milk Sold Here

In an effort to keep the milk which is furnished to New Castle at a high peak during February, Dr. William L. Steen, bacteriologist for the city of New Castle examined 25 samples.

Almost daily sanitary policemen visit different sections of the city and collect samples from various concerns. The operators of the milk concerns are not apprised of their coming.
